

A Positive Perspective

Maintain Your Commitment with a Long-Term Approach

Stick With Your Plan

Sticking with your investment plan may offer the best chance for reaching your long-term goals. But many times, market volatility may shake even the most confident investor. Investors who lose focus and sell on emotion when market volatility occurs, may play a constant game of catch up. If you look at S&P 500® Index performance dating back to 1928, you can see the number of positive performance years outweighs the negative performance years.

Performance of the S&P 500® Index

Source: Bloomberg. Date range: 1/1/28 - 12/31/19.

While history is no guarantee of future performance, knowing how the market has behaved in the past may help you as you plan for your future.

 **Stay focused. Even in times of market volatility.**

Past performance is no guarantee of future results.

Investing involves risk, including the possible loss of principal and fluctuation of value.

Index performance does not reflect the expenses of managing a portfolio as an index is unmanaged and not available for direct investment.

S&P 500® Index reflects U.S. large-cap equity performance and represents broad U.S. equity market performance.
