

Custodial Account for a Minor Application

PO Box 219109 • Kansas City, MO 64121-9109 • 800-525-3713

Use this form to establish a custodial account for a minor (Uniform Gifts/Transfers to Minors Act).

Please do not use this form to establish any type of Janus Henderson IRA.

Both the minor and the custodian must be a US Citizen or a US Resident Alien residing in the United States or a US Territory to open a Janus Henderson account.

Important Notes:

- To help the government deter money laundering and terrorism funding activities, all financial institutions are required to obtain, verify and record information that identifies each person who opens an account. Please read the important disclosures in Step 10.
- The custodian’s control of a Uniform Gifts/Transfers to Minors Act (UGMA/UTMA) account terminates once the minor reaches the legal age of termination (usually between the ages of 18 and 21) as determined by the laws of the state of governance under which the account was established. At this time, the custodial account needs to be transferred (there are no tax consequences) into a taxable non-retirement account for the former minor, who then becomes the full owner and decision-maker.
- Read the prospectus carefully before you invest or send money.
- Please type or print in black ink.

INVESTORS

Foreign securities are subject to additional risks including currency fluctuations, political and economic uncertainty, increased volatility, lower liquidity and differing financial and information reporting standards, all of which are magnified in emerging markets.

Increased portfolio turnover may result in higher expenses and potentially higher net taxable gains or losses.

Derivatives can be highly volatile and more sensitive to changes in economic or market conditions than other investments. This could result in losses that exceed the original investment and may be magnified by leverage.

Real estate securities, including Real Estate Investment Trusts (REITs) may be subject to additional risks, including interest rate, management, tax, economic, environmental and concentration risks.

Growth stocks are subject to increased risk of loss and price volatility and may not realize their perceived growth potential.

There are special risks associated with selling securities short. Stocks sold short have the potential risk of unlimited losses.

Initial Public Offerings (IPOs) are highly speculative investments and may be subject to lower liquidity and greater volatility. Special risks associated with IPOs include limited operating history, unseasoned trading, high turnover and non-repeatable performance.

High-yield or "junk" bonds involve a greater risk of default and price volatility and can experience sudden and sharp price swings.

Fixed income securities are subject to interest rate, inflation, credit and default risk. The bond market is volatile. As interest rates rise, bond prices usually fall, and vice versa. The return of principal is not guaranteed, and prices may decline if an issuer fails to make timely payments or its credit strength weakens.

Concentrated investments in a single sector, industry or region will be more susceptible to factors affecting that group and may be more volatile than less concentrated investments or the market as a whole.

Investing involves market risk; principal loss is possible. Equity and fixed income securities are subject to various risks including, but not limited to, market risk, credit risk and interest rate risk.

Diversification neither assures a profit nor eliminates the risk of experiencing investment losses.

Performance of the Global Allocation Funds depends on that of the underlying funds. They are subject to the volatility of the financial markets. Because Janus Capital Management is the adviser to the Fund and to the underlying affiliated funds held within the Fund, it is subject to certain potential conflicts of interest.

The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. Ratings may vary by share class.

Funds were selected based on a 4 or 5 star Overall Morningstar Rating™. Janus Henderson has other funds ranked/rated lower by Morningstar.

Ratings and/or rankings do not indicate positive performance.
