Investing involves risk, including the possible loss of principal and fluctuation of value.

Janus Henderson VIT Enterprise Portfolio is closed to certain new investors.

Active Share represents the portion of portfolio holdings that differ from an index. Active share is not an indicator of past or future performance. Higher active share may present increased risk of volatility and does not protect against loss.

Active share is for equity portfolios and is based on equity securities only. Fixed income securities and cash, if held in the funds, are excluded from the analysis.

Equity portfolios are defined as those Janus Henderson mutual funds with a primary investment strategy of investing in long positions of equity securities. Fixed income, asset allocation and alternative focused funds are excluded.

MSCI All Country World ex USA IndexSM reflects the equity market performance of global developed and emerging markets, excluding the U.S.
