ARCHITECTS OF FIXED INCOME SOLUTIONS

In a world of constant change, fixed income portfolios must navigate evolving markets and economic conditions. Effective portfolio construction increasingly requires breadth of expertise and innovative client-led solutions.

As architects of fixed income solutions, we design portfolios with purpose. Our fixed income capabilities span the full spectrum across single sector and multi sector strategies, enabling flexible portfolio construction across risk profiles and market environments.

Guided by perspective. Driven by innovation.

Rigorous fundamental analysis, deep experience, and advanced quantitative tools provide the perspective needed to generate high-conviction ideas and identify relative value.

From pioneering securitized strategies to advancing active fixed income ETFs, innovation is core to our approach.

All this is built on the foundation of more than 40 years of delivering fixed income solutions for our clients.

Our fixed income platform

Source: Janus Henderson Investors, as at 31 March 2026. AUM in USD as at 1 January 2026. Note: Income, Capital preservation, and Diversification are common client objectives and not a guarantee. Market risk remains, and outcomes are not assured. Corporate Credit and Securitised includes private and public. 'Private Credit' includes formerly NBK Capital Partners and Victory Park Capital. 'Core Fixed Income' includes the fixed income sleeve of the Balanced strategy. Totals may not sum due to rounding. Other managed assets of <1% not shown above.

YOUR OBJECTIVES. OUR GOALS-BASED APPROACH

Our Portfolio Construction and Strategy Team seeks to provide clients with various routes to success via our **Fixed Income Framework**, allocating across objectives according to individual needs.

The fixed income framework:

- ▶ Adopts a forward-looking mindset.
- ▶ Reduces the universe of fixed income managers to four distinct objectives.

Preserve: Protect capital

- **Goal:** Preserve principal and provide liquidity
- **Personality:** Limited duration and low volatility; generally the most liquid portion of an entire portfolio
- **Criteria:** Cash and cash-like instruments with high credit quality and little duration risk, prioritizing capital preservation over capital appreciation

Defend: Ballast, core fixed income

- **Goal:** Seeks to provide ballast against equity volatility during a market drawdown
- **Personality:** Low correlation to traditional equities; high quality, high interest-rate sensitivity; composed primarily of investment-grade securities
- **Criteria:** Allocates to currency-hedged, global developed market credit, securitized, or sovereign debt

Diversify: Beyond traditional benchmarks

- **Goal:** Provide some elements of defense with higher income potential
- **Personality:** Go-anywhere approaches combining elements from Preserve, Defend, and Increase Income categories; more risk-aware than approaches in the Increase Income category
- **Criteria:** Allocates across the quality spectrum, with higher alpha targets than benchmark-constrained portfolios; may include ability to short; common strategy names include terms like "strategic income", "multi-sector", and "unconstrained"

Increase income: High income opportunities

- **Goal:** Aims for the highest total return within fixed income by seeking high income opportunities and potential capital appreciation to achieve equity-like return on a global scale
- **Personality:** High volatility, high correlation to traditional equities
- **Criteria:** Benchmark-constrained, long-only exposure, typically to below-investment grade and/or lower in the capital structure, or to emerging markets

About Janus Henderson's Portfolio Construction and Strategy Team

The PCS team performs customized analyses on investment portfolios, providing differentiated, data-driven diagnostics. From a diverse universe of thousands of models emerge trends, themes and potential opportunities in portfolio construction that we believe will be interesting and beneficial to any investor.
