

INSTITUTIONAL LONG DATED GILT FUND

Class A Acc ISIN: GB00B45ZDW09
 Fund Currency: GBP Share Class Currency: GBP

A sub-fund of Janus Henderson UK & Europe Funds, a UK OEIC managed by Henderson Investment Funds Limited.

Objective and investment policy

Objective

The Fund aims to provide an income with the potential for capital growth over the long term.

Performance target: To outperform the FTSE Actuaries UK Conventional Gilts greater than 15 years to maturity Index by 0.75% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in UK government bonds (also known as gilts), typically with maturities of 15 years or more. (Longer dated bonds are generally more sensitive to changes in interest rates and may at times exhibit significant volatility.)

The Fund may also hold other assets including bonds of other types from any issuer, Collective Investment Schemes (including those managed by Janus Henderson), cash and money market instruments.

The investment manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the FTSE Actuaries UK Conventional Gilts greater than 15 years to maturity Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index.

As an additional means of assessing the performance of the Fund, the IA UK Gilt sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Strategy

The investment manager aims to provide a return in excess of the benchmark by investing primarily in long maturity UK government bonds, including inflation-linked gilts and floating rate assets. The managers can also invest in other global fixed income securities with a focus on G10 government bond markets and associated fixed income derivatives, with the aim of providing diversification in the portfolio, as well as looking to enhance returns and/or manage risk.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in net asset value in the past 5 years than those in lower categories. The lowest category does not mean risk free.

Historical data, such as is used in calculating the SRRI, may not be a reliable indication of the future risk profile of the Fund.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

Credit Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital to the Fund. If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates and Longer Maturity Bonds When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise or are expected to rise. This is especially true for bonds with a longer time to maturity. A high portion of this fund is invested in longer maturity bonds and so rising interest rates can pose a significant risk to capital.

Country or Region If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

Derivatives and Leverage The Fund may use derivatives towards the aim of achieving its investment objective. This can result in 'leverage', which can magnify an investment outcome and gains or losses to the Fund may be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	4.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Past performance

Year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Class A Acc (Net of Charges)	1.6	-7.6	-5.3	22.8	-1.0	17.1	2.3	-1.8	11.6	14.5

Sector: IA UK Gilts	1.6	-5.3	-0.4	14.4	-0.4	11.0	1.7	-0.1	7.2	9.0

■ Class A Acc (Net of Charges)

■ FTSE Actuaries UK Conventional Gilts greater than 15 years to maturity Index +0.75%pa

■ Sector: IA UK Gilts

Charges taken from the Fund over a year

Ongoing Charges	0.85%
-----------------	-------

The ongoing charge figure is estimated because of the recent changes made to this share class.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

The ongoing charges includes fees payable to Distributors. Where the ongoing charges exceed the target outperformance relative to the benchmark the return is likely to be below the benchmark return, even when the Fund's outperformance target (before the deduction of charges) has been achieved.

For more information please see the Company's Prospectus.

The past performance is calculated in GBP.

The Fund was launched in December 1997 and the share class was launched in August 2011.

Past performance is not a guide to future performance.

The past performance shown in the chart takes into account all charges except one-off charges.

Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the share class after the deduction of charges.

The Fund does not aim to track the performance of the index.

Practical information

Depository: NatWest Trustee and Depository Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit www.janushenderson.com. Documents are available free of charge in English and certain other languages. You may also contact the registered office of the Fund at 201 Bishopsgate, London EC2M 3AE, or your local representative office.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund.

Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Henderson Investment Funds Limited may be held liable solely on the basis of any statement contained in this document that is

misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

The assets of each sub-fund are segregated, meaning that each sub-fund is insulated from any losses or claims associated with the other sub-funds. Further information about dealing and switching to other share classes of this Fund or other Funds in this OEIC may be obtained by visiting www.janushenderson.com or found in the Company's prospectus.

The details of the up-to-date remuneration policy of the Manager are available at www.janushenderson.com. A paper copy of the remuneration policy will be made available free of charge upon request. These include a description of how pay and benefits are worked out and the people or committee members responsible for awarding them.

The Fund and Henderson Investment Funds Limited are authorised in the UK and regulated by the Financial Conduct Authority ("FCA").

This Key Investor Information is accurate as at 10 February 2021.
