Global Responsible Managed Fund Class E Acc ISIN: GB00BJ0LFW26

A sub-fund of Janus Henderson Sustainable/Responsible Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (5 years or more).

Investment policy

The Fund invests in shares (also known as equities) and bonds of companies and issuers, in any industry, in any country. The Fund also invests in developed market G7 government bonds. The Investment Manager seeks to identify companies with attractive long-term business models offering the potential for good capital returns over the long term. The equity element of the fund consists of one underlying allocation of UK shares and one underlying allocation of global shares. The allocation of Global shares in the Fund will invest in companies that derive at least 50% of their revenues from products and services that are considered by the Investment Manager as contributing to positive environmental or social change and thereby have an impact on the development of a sustainable global economy.

The Fund may also invest in other assets including cash.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the IA Mixed Investment 40 - 85% Shares sector average, which is based on a peer group of broadly similar funds, as this limits the level of exposure the Fund may have to company shares. The Investment Manager has a high degree of freedom to choose individual investments for the Fund and to vary allocations between asset types.

As an additional means of assessing the performance of the Fund, its Composite Index (50% MSCI World ex UK, 25% FTSE All-Share Index, 12.5% Bloomberg Barclays Global Aggregate Corporate Unhedged GBP, and 12.5% Bloomberg Barclays Sterling Aggregate Unhedged GBP), which is broadly representative of the mix of assets to which the Fund is typically exposed may also provide a useful comparator.

Strategy

The Investment Manager looks to construct a differentiated and well diversified global portfolio of company shares and fixed income securities (corporate and government bonds). Investee companies in the global shares allocation portion will typically be aligned with megatrends identified by the Investment Manager, these include climate change, resource constraints, growing populations, and ageing populations, and will derive the majority of their revenues (at least 50%) from its sustainability themes: efficiency, cleaner energy, water management, environmental services, sustainable transport, sustainable property & finance, safety, quality of life, knowledge & technology and health. These companies should have attractive financial attributes such as persistent revenue growth and durable cash flows, as well as exhibiting strong management of environmental, social, and corporate governance risks. The Investment Manager also applies exclusionary screens to avoid companies involved in business activities that may be environmentally and/or socially harmful. More product-specific information, including our investment principles, can be found in the Document Library of the website at www.janushenderson.com.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

Risk and reward profile

Potentially lower reward						Potentially higher reward
Lower risk						Higher risk
1	2	3	4	**5**	6	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Credit Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital. If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment.

Responsible Investment The Fund follows a responsible investment approach, which may cause it to be underweight in certain sectors (due to the avoidance criteria employed) and thus perform differently than funds that have a similar financial objective but which do not apply any avoidance criteria when selecting investments.

Derivatives Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	4.50%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

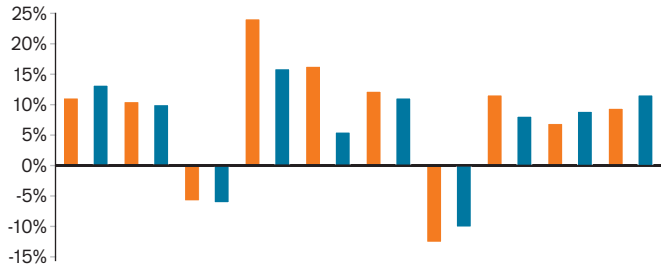

Ongoing Charges	1.23%

The ongoing charges are based on actual annualised expenses for the period ending 30 September 2025. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.
