KEY INVESTOR INFORMATION
This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson
INVESTORS

Janus Henderson

Global High Yield Bond Fund Class Z Inc ISIN: GB00BKSB1F65

A sub-fund of Janus Henderson Global Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide an income with the potential for capital growth over the long term.

Performance target: To outperform the ICE BofA Global High Yield Constrained Index Hedged to GBP by 1.75% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in high yield (non-investment grade, equivalent to BB+ rated or lower) corporate bonds, in any country.

The Fund may also invest a combined maximum of 20% in other assets including bonds of other types from any issuer, cash and money market instruments.

The Investment Manager may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the ICE BofA Global High Yield Constrained Index Hedged to GBP, as this forms the basis of the Fund's performance target. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index.

As an additional means of assessing the performance of the Fund, the IA Sterling High Yield sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Strategy

The Investment Manager seeks to provide a high overall yield and potential for capital growth by investing primarily in sub investment grade rated corporate bonds across global high yield markets. The investment process combines rigorous fundamentally driven security selection from the credit analysts, which is expected to be the largest driver of performance, with asset allocation views at the fund and regional levels.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Transaction costs In addition to the charges set out in the Charges section below, the Fund may incur a higher level of portfolio transaction costs as a result of investing in less actively traded markets. These costs are paid from the assets of the Fund and may have a material impact on your returns.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

Potentially lower reward						Potentially higher reward
Lower risk						Higher risk
1	2	3	**4**	5	6	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on simulated historic volatility. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 4 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Credit Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital. If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment.

High Yield Bonds While high yield (non-investment grade) bonds generally offer higher rates of interest than investment grade bonds, they are more speculative and more sensitive to adverse changes in market conditions.

Contingent Convertible Bonds (CoCos) CoCos can fall sharply in value if the financial strength of an issuer weakens and a predetermined trigger event causes the bonds to be converted into shares/units of the issuer or to be partly or wholly written off.

Emerging Markets Emerging markets expose investors to higher volatility and greater risk of loss than developed markets; they are susceptible to adverse political and economic events, and may be less well regulated with less robust custody and settlement procedures.

Derivatives and Leverage Derivatives may be used to help achieve the investment objective. This can result in leverage (higher levels of debt), which can magnify an investment outcome. Gains or losses may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Currency Hedging When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies.

Liquidity Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Charges to Capital Some or all of the ongoing charges and other costs of the Fund may be taken from capital, which may erode capital or reduce potential for capital growth.

Counterparty Risk and Operational Risk Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

Ongoing Charges	0.00%

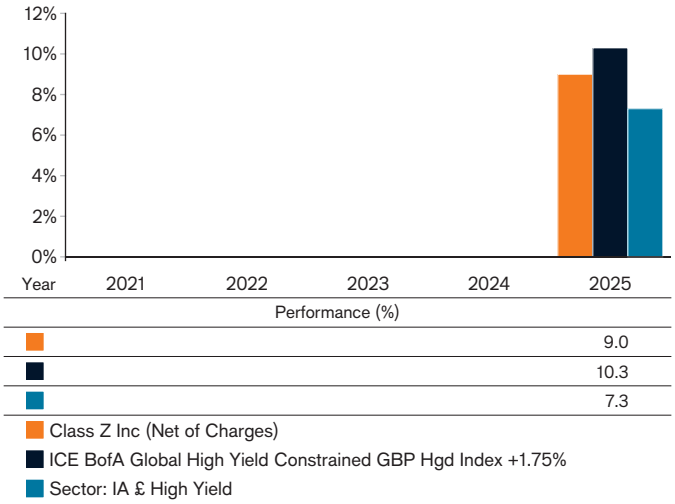

The ongoing charges are based on actual annualised expenses for the period ending 31 October 2025. Ongoing charges may vary from year to year.

Due to the small size of the share class, the expenses charged may be lower than rates disclosed in the prospectus. Therefore, the reported OCF is not indicative of future expenses expected as the share class grows in size. Please refer to the prospectus for the share class charges.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

Past performance

The past performance is calculated in GBP.

The Fund was launched in December 2020 and the share class was launched in April 2024.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the share class after the deduction of charges.

The Fund does not aim to track the performance of the benchmark.

Practical information

Depositary: NatWest Trustee and Depositary Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit **www.janushenderson.com**. Documents are available free of charge in English and certain other languages. You may also contact the registered office of the Fund at 201 Bishopsgate, London EC2M 3AE, or your local representative office.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund.

Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Janus Henderson Fund Management UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

The assets of each sub-fund are segregated, meaning that each sub-fund is insulated from any losses or claims associated with the other sub-funds.

Further information about dealing and switching to other share classes of this Fund or other Funds in this OEIC may be obtained by visiting **www.janushenderson.com** or found in the Company's prospectus.

The details of the up-to-date remuneration policy of the Manager are available at **www.janushenderson.com**. A paper copy of the remuneration policy will be made available free of charge upon request. These include a description of how pay and benefits are worked out and the people or committee members responsible for awarding them.

The Fund and Janus Henderson Fund Management UK Limited are authorised in the UK and regulated by the Financial Conduct Authority ("FCA").

This Key Investor Information is accurate as at 11 February 2026.
