Janus Henderson

Sustainable Future Technologies Fund Class G Inc ISIN: GB00BN7CMZ87

A sub-fund of Janus Henderson Sustainable/Responsible Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (5 years or more) by investing in technology-related companies that contribute to the development of a sustainable global economy. The Investment Manager has identified eight sustainable technology themes that help to create a sustainable global economy and reflect technology as the science of solving problems – addressing current global challenges such as population growth, poverty and inequality, ageing population, resource constraints and climate change. The Investment Manager will invest in companies whose products and/or services are aligned with the sustainability themes.

Investment policy

The Fund invests at least 90% of its assets in shares (also known as equities) of technology-related companies, of any size, in any industry and in any country, provided that such companies are not excluded by virtue of the applicable exclusions and meet the Fund's sustainability standard. Whether a company provides sustainable products and/or services, and therefore whether it is a sustainable company for this Fund, will be determined by a robust evidence-based standard, which requires the majority of its current revenues (at least 50%) to be aligned to one or more of the sustainability themes.

The Fund may also invest in other assets including: (a) companies that derive at least 50% of prospective revenues from products and services that contribute to positive environmental or social change; (b) Collective Investment Schemes (including those managed by Janus Henderson); and (c) cash.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The strategy of the Fund is designed to be benchmark agnostic and focuses on absolute returns, however, the MSCI ACWI Index is selected as a benchmark to help clients measure relative performance. The benchmark does not constrain the Investment Manager; the Fund is actively managed, and the Investment Manager has discretion to choose investments that are not benchmark constituents and to maintain different weightings compared to the benchmark. The benchmark does not define the investment universe and is used for the measurement of relative performance only, against a wide definition of the global equity market.

As an additional means of assessing the performance of the Fund, the IA Technology and Technology Innovations sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Strategy

The Fund pursues its objectives by investing in sustainable companies which meet the Investment Manager's definition of sustainable and which have attractive financial prospects based on detailed analysis of financial statements and forecasted cash flows. Examples of themes the Investment Manager has identified include clean energy technology, sustainable transport, low carbon infrastructure, digital democratisation, healthcare technology, smart cities, data security and resource productivity and optimisation. The Investment Manager looks to navigate the hype cycle (different stages in the development of a technology from conception to widespread adoption) around technology adoption by assessing the company's fundamental business model and by focusing on companies with high quality management following good governance practices and sustainable barriers to entry, driving longer term unappreciated earnings growth. More product-specific information, including our investment principles, can be found in the Document Library of the website at www.janushenderson.com. Further information as to how Janus Henderson approaches ESG, including Janus Henderson's "ESG Investment Policy", can be found at www.janushenderson.com/esg-governance.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

Potentially lower reward						Potentially higher reward
Lower risk						Higher risk
1	2	3	4	5	**6**	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on simulated historic volatility. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Smaller Companies Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

Country or Region High exposure to a particular country or geographical region carries a higher level of risk than a more broadly diversified portfolio.

Investment Focus The Fund is focused towards particular industries or investment themes and may be heavily impacted by factors such as changes in government regulation, increased price competition, technological advancements and other adverse events.

Sustainable Investment Due to the Fund's Sustainability Approach, it may exclude or invest less or more in certain companies and may therefore perform differently to funds that have a similar financial objective, but that do not have a binding Sustainability Approach. Political, regulatory or investor sentiment about sustainability initiatives may change over time and impact the Fund's performance.

Derivatives Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

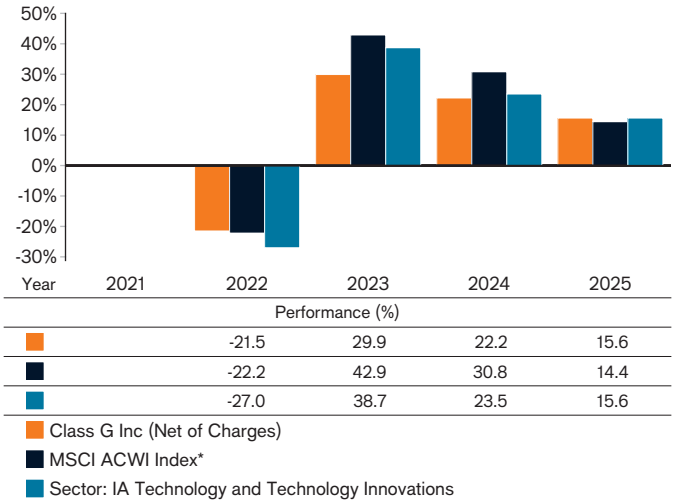

Ongoing Charges	0.44%

The ongoing charges are based on actual annualised expenses for the period ending 30 September 2025. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

Past performance

*Warning: From 2 December 2024, the Fund's benchmark changed from MSCI ACWI Information Technology Index to MSCI ACWI Index. Past performance before 2 December 2024 is shown for the Fund's previous benchmark.

The past performance is calculated in GBP.

The Fund and the share class were launched in August 2021.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

The Fund does not aim to track the performance of the benchmark.

Practical information

Depositary: NatWest Trustee and Depositary Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit **www.janushenderson.com**. Documents are available free of charge in English and certain other languages. You may also contact the registered office of the Fund at 201 Bishopsgate, London EC2M 3AE, or your local representative office.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund.

Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Janus Henderson Fund Management UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

The assets of each sub-fund are segregated, meaning that each sub-fund is insulated from any losses or claims associated with the other sub-funds.

Further information about dealing and switching to other share classes of this Fund or other Funds in this OEIC may be obtained by visiting **www.janushenderson.com** or found in the Company's prospectus.

The details of the up-to-date remuneration policy of the Manager are available at **www.janushenderson.com**. A paper copy of the remuneration policy will be made available free of charge upon request. These include a description of how pay and benefits are worked out and the people or committee members responsible for awarding them.

The Fund and Janus Henderson Fund Management UK Limited are authorised in the UK and regulated by the Financial Conduct Authority ("FCA").

This Key Investor Information is accurate as at 24 February 2026.
