Janus Henderson

Global Select Fund Class G Acc ISIN: GB00BQTZJT99

A unit trust, managed by Janus Henderson Fund Management UK Limited.

Fund Currency: GBP Unit Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the MSCI All Countries World Index by 2.5% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in a portfolio of shares (also known as equities) of companies, of any size, in any industry, in any country.

The Fund may also invest in other assets including cash and money market instruments.

The Investment Adviser may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the MSCI All Countries World Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The Investment Adviser has discretion to choose investments for the Fund with weightings different to the index or not in the index.

As an additional means of assessing the performance of the Fund, the IA Global sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Strategy

The Investment Adviser seeks to grow capital by investing in companies with strong or improving cash flow. The Fund considers both growth criteria (i.e. where company earnings are expected to grow at an above-average rate), and value criteria (i.e. where share prices are expected to increase), to select the best companies to invest in. The investment process looks to identify meaningful differences between the Investment Adviser's analysis and the market's expectations. Taking a disciplined approach to portfolio construction and risk management, the Investment Adviser aims to ensure that stock selection is the primary driver of returns.

Other Information The Investment Adviser will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Adviser considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy The Fund offers accumulation units (units in which net income is retained within the price).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch units in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Fund's Prospectus.

Risk and reward profile

Potentially lower reward — Potentially higher reward

Lower risk — Higher risk

1	2	3	4	**5**	6	7

The value of an investment and any income from it can go up or down. When you sell your units they may be worth less than you paid for them.

The rating above is based on simulated historic volatility. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The unit class appears at 5 out of 7. Units in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Emerging Markets Emerging markets expose investors to higher volatility and greater risk of loss than developed markets; they are susceptible to adverse political and economic events, and may be less well regulated with less robust custody and settlement procedures.

Sustainability Approach The sustainability approach applied may exclude potential investments which do not meet certain criteria (e.g. non-financial criteria such as ESG screens). This may cause differences in performance compared to similar products that are permitted to invest in those investments.

Derivatives Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Fund's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

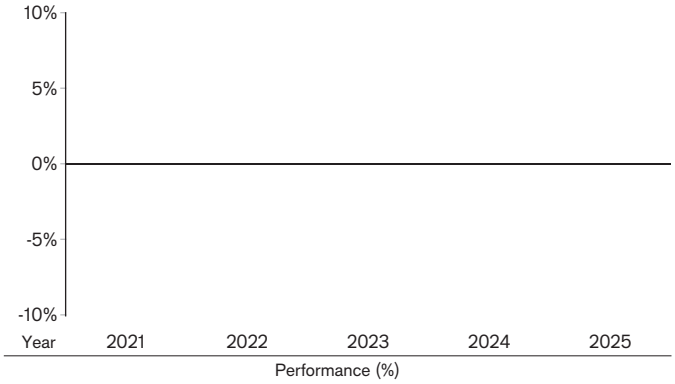

Ongoing Charges	0.39%

The ongoing charges are based on actual annualised expenses for the period ending 31 May 2026. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Fund's Prospectus.

Past performance

The past performance is calculated in GBP.

The Fund was launched in February 1982 and the units were launched in May 2025.

Insufficient data is available to provide a useful indication of past performance.

The Fund does not aim to track the performance of the benchmark.
