Janus Henderson

Diversified Alternatives Fund Class Z Acc ISIN: GB00BSL6TZ07

A sub-fund of Janus Henderson Multi-Manager Investment OEIC, a UK OEIC managed by Janus Henderson Fund Management UK Limited.

Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth, over the long term.

Performance target: To outperform the Consumer Price Index by 3% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests globally in a diverse portfolio of investments which gain exposure indirectly to alternative asset classes such as private equity, infrastructure, property, commodities and hedge funds. The Fund will invest at least 80% in a combination of closed ended funds (e.g. investment trusts), investment companies, REITs, collective investment schemes (both regulated and unregulated and including those managed by Janus Henderson), exchange traded funds (ETFs), exchange traded notes (ETNs) and fixed interest securities.

The Fund may also invest in cash and money market instruments. The Fund may invest up to 20% in bank structured notes. Bank structured notes are complicated customised financial products where the return is linked to the performance of an underlying asset (or assets) such as shares (equities) of companies, bonds issued by companies and governments, and alternative asset classes such as property, infrastructure, commodities, private equity and hedge fund type strategies. The Fund will limit its investment in equities (excluding closed ended funds, investment companies, REITs and ETFs) to no more than 20% and its investment to collective investment schemes (including those managed by Janus Henderson) to no more than 10% of the Fund's net assets.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the Consumer Price Index as this forms the basis of the Fund's performance target. The Investment Manager has complete discretion to choose investments for the Fund.

Strategy

The Investment Manager seeks to provide investors with a diversified portfolio of alternative assets such as hedge fund strategies, private equity and commodities, with the fund typically having a lower level of volatility when compared to movements in equity markets. The investment team seeks to identify attractive investments through assessing market conditions and conducting due diligence on alternative asset managers.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

Risk and reward profile

Potentially lower reward						Potentially higher reward
Lower risk						Higher risk
1	2	3	**4**	5	6	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on simulated historic volatility. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 4 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Investment Trusts The Fund invests significantly in investment trusts to gain exposure to alternative asset classes and, since investment trusts are listed equities, events impacting the wider equity market are likely to impact the Fund.

Underlying Funds The Fund invests in other funds (including exchange-traded funds and investment trusts/companies). This may introduce more risky assets, derivative usage and other risks associated with the underlying funds, as well as contributing to a higher level of ongoing charges.

Derivatives Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

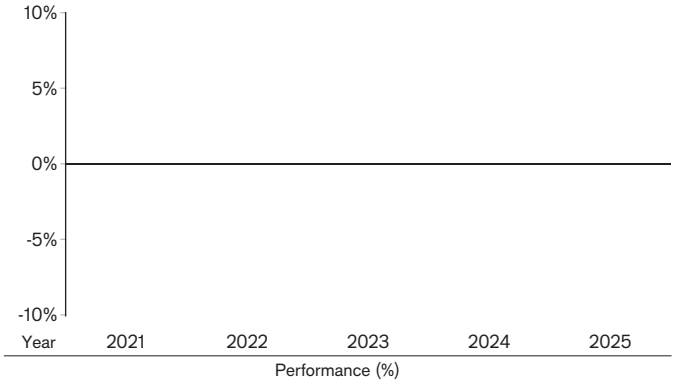

Ongoing Charges	0.15%

The ongoing charges are based on actual annualised expenses for the period ending 31 July 2026. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

Past performance

The past performance is calculated in GBP.

The Fund was launched in February 2013 and the share class was launched in August 2025.

Insufficient data is available to provide a useful indication of past performance.

The Fund does not aim to track the performance of the benchmark.
