Janus Henderson

Discovering New Alpha Fund Class G Acc ISIN: GB00BT5J2K89

A sub-fund of Janus Henderson Global Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.

Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (5 years or more).

Performance target: To outperform the MSCI ACWI Index, after the deduction of charges, over any 5-year period.

Investment policy

The Fund invests at least 80% of its net assets in equities and equity-related instruments of companies worldwide, including up to 20% of its net assets in emerging markets. The Investment Manager seeks to invest in companies that it believes may offer strong growth potential because their products and services are considered well positioned to benefit from addressing global challenges, including population growth, ageing population, resource constraints, and climate-related developments. The Fund may invest in companies of any size, in any country and in any industry, but may have a bias towards smaller capitalisation companies. Equities may include China A-Shares, directly through the Stock Connect Programmes and other eligible exchanges or indirectly through derivative instruments. Exposure to China-A Shares will not be more than 20% of the Fund's net asset value. Equity-related instruments may include depositary receipts.

The Fund may also invest in other assets including Collective Investment Schemes (including those managed by Janus Henderson), cash and money market instruments.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the MSCI ACWI Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index.

Strategy

The Investment Manager, through a thematic framework of stock selection, seeks to identify new sources of alpha by constructing a global portfolio of companies that are considered well positioned to benefit from structural changes in the global economy through positively addressing global challenges, with the potential to drive superior long term capital growth. The global challenges identified by the Investment Manager include but may not be limited to the following examples: population growth, ageing population, resource constraints and climate-related developments. These global challenges are expressed through a range of growth themes that represent specific areas of investment opportunity. Growth themes may include but are not limited to, smarter automation, mobility, sovereignty, longevity and healthcare, and energy efficiency. The growth themes may evolve over time in response to market and economic developments. The Investment Manager believes that investing in companies that are at the forefront of these growth themes will allow the Fund to deliver strong financial return potential. The Investment Manager will optimise portfolio construction to minimise geographic, sector and style biases relative to the benchmark, with portfolio performance driven primarily by individual stock selection. While the Fund will invest in companies of any size, given the investment approach to identify future, long term high growth companies, the Fund may have a bias towards smaller capitalisation companies. These companies might have a steeper growth trajectory than more established larger companies and may have more growth potential.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

Potentially lower reward						Potentially higher reward
Lower risk						Higher risk
1	2	3	4	**5**	6	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on simulated historic volatility. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Smaller Companies Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

Derivatives Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates.

Currency Hedging When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies.

Liquidity Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

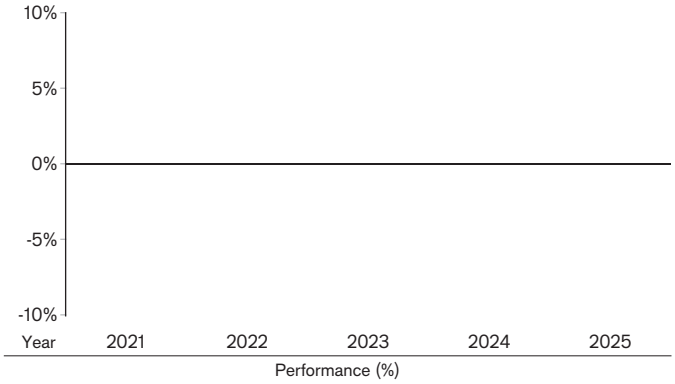

Ongoing Charges	0.66%

The ongoing charge figure is estimated because the Fund is relatively new and has insufficient track record for us to calculate it exactly.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

Past performance

The past performance is calculated in GBP.

The Fund and the share class were launched in August 2026.

Insufficient data is available to provide a useful indication of past performance.

The Fund does not aim to track the performance of the benchmark.

Practical information

Depositary: NatWest Trustee and Depositary Services Limited.

To obtain more information: This Key Investor Information document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit **www.janushenderson.com**. Documents are available free of charge in English and certain other languages. You may also contact the registered office of the Fund at 201 Bishopsgate, London EC2M 3AE, or your local representative office.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund.

Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Janus Henderson Fund Management UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

The assets of each sub-fund are segregated, meaning that each sub-fund is insulated from any losses or claims associated with the other sub-funds.

Further information about dealing and switching to other share classes of this Fund or other Funds in this OEIC may be obtained by visiting **www.janushenderson.com** or found in the Company's prospectus.

The details of the up-to-date remuneration policy of the Manager are available at **www.janushenderson.com**. A paper copy of the remuneration policy will be made available free of charge upon request. These include a description of how pay and benefits are worked out and the people or committee members responsible for awarding them.

The Fund and Janus Henderson Fund Management UK Limited are authorised in the UK and regulated by the Financial Conduct Authority ("FCA").
