### Objective and investment policy

The Fund aims to provide a return, from a combination of capital growth and income over the long term.

Performance target: To outperform the MSCI Emerging Markets Index by 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least two-thirds of its assets in shares (equities) and equity-related securities of companies, of any size, in any industry, in emerging markets. Companies will have their registered office in or do most of their business (directly or through subsidiaries) in emerging markets. 'Emerging markets' may be countries in the MSCI Emerging Markets Index, those included in the World Bank definition of developing (low and lower middle income) economies, or which are, in the investment manager's opinion, developing.

The Fund is actively managed with reference to the MSCI Emerging Markets Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

### Additional information

This is a Luxembourg SICAV Fund, regulated by the Commission de Surveillance du Secteur Financier (CSSF).

### What are the risks specific to this fund?

- The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.
- Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.
- Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.
- Emerging markets expose the Fund to higher volatility and greater risk of loss than developed markets; they are susceptible to adverse political and economic events, and may be less well regulated with less robust custody and settlement procedures.
- The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.
- If the Fund holds assets in currencies other than the base currency of the Fund or you invest in a share class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates.
- Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

### General risks

- Past performance is not a guide to future performance.
- The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested.
- Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change.

### Important information

The investments underlying this financial product (referred to as the Fund) do not take into account the EU criteria for environmentally sustainable economic activities. While the analysis of ESG factors is an integral component across the Investment Manager's investment capabilities, the Investment Manager does not maximise portfolio alignment with sustainability risks as a separate goal in its own right nor does it precisely attribute the impact of ESG factors on returns for the Fund. The Investment Manager does not consider the adverse impacts of investment decisions on sustainability factors as set out under SFDR with respect to the Fund because it is not classified under either Article 9 or Article 8 of Regulation (EU) 2019/2088. All ongoing charges stated are as per latest published report and accounts. \* Yields are shown net except for bond funds which are shown gross. The Historical Yield reflects distributions declared over the past 12 months as a percentage of the midmarket share price, at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%. Any investment application will be made solely on the basis of the information contained in the Fund's prospectus (including all relevant covering documents), which will contain investment restrictions. This document is intended as a summary only and potential investors must read the Fund's prospectus and key investor information document before investing. A copy of the Fund's prospectus and key investor information document can be obtained from Henderson Global Investors Limited in its capacity as Investment Manager and Distributor. Nothing in this document is intended to or should be construed as advice. This communication does not constitute an offer or a recommendation to sell or purchase any investment. It does not form part of any contract for the sale or purchase of any investment. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested. Tax assumptions and reliefs depend upon an investor's particular circumstances and may change if those circumstances or the law change. If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially. The Fund is a recognised collective investment scheme for the purpose of promotion into the United Kingdom. Potential investors in the United Kingdom are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment in the Fund and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme. We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes.
