HORIZON ASSET-BACKED SECURITIES FUND

IU2 EUR ISIN LU2959538377

Investment objective

The Fund aims to provide a return from a combination of income and capital growth over the long term. Performance target: To outperform ESTR by 1.5% per annum, before the deduction of charges, over any 5-year period.

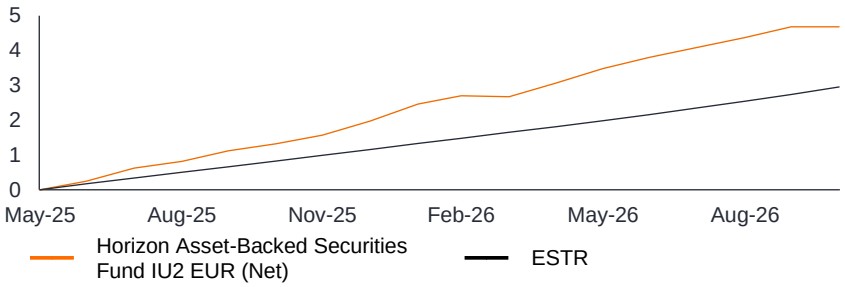

For the fund's investment policy, refer to the Additional fund information on page 3.
Past performance does not predict future returns.

Baa	7.66
NR	1.05

Bond credit quality ratings provided by Janus Henderson Investors are based on the average of ratings from Moody's, Standard & Poor's and Fitch where all three agencies have provided a rating. If less than 3 agencies rate a security, the average of those are used. Ratings are measured on a scale that ranges from Aaa (highest) to B, any lower ratings are grouped into 'Below B' (lowest).

Fees & charges (%)

Annual management charge (AMC)	0.30
Estimated ongoing charge (OCF)	0.39

All ongoing charges stated are as per latest published report and accounts.

Fund charges will impact the value of your investment. In particular, the ongoing charges applicable to each fund will dilute investment performance, particularly over time. For further explanation of charges please visit our Fund Charges page at www.janushenderson.com.

Under some circumstances initial charges may apply. Please refer to the Prospectus for more details.

Additional fund information

Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change. Please note the performance target is to be achieved over a specific annualised time period. Refer to the performance target wording within the objective. The performance data does not take account of the initial charge and Janus Henderson does not currently levy a redemption charge. From 26 May 2026, the Fund's investment strategy changed. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%. This is a Luxembourg SICAV Fund, regulated by the Commission de Surveillance du Secteur Financier (CSSF). Note that any differences among portfolio securities currencies, share class currencies and costs to be paid or represented in currencies other than your home currency will expose you to currency risk. Costs and returns may increase or decrease as a result of currency and exchange rate fluctuations. To obtain our prospectus and any additional information please visit our website on: www.janushenderson.com. Investment into the fund will acquire units/shares of the fund itself and not the underlying assets owned by the fund. Cash balances and exposures are based on settled and unsettled trades as at the reporting date.

Investment policy

The Fund invests at least 70% of its net assets in Asset-Backed Securities (ABS), including mortgage-backed securities (MBS). The Fund invests only in investment grade securities (rated BBB- or higher by at least one independent credit rating agency) at the time of purchase. However, the Fund shall not hold more than 10% of its net asset value in ABS, including MBS that have been downgraded below investment grade after purchase. The Fund may also hold other assets including other types of bonds and floating rate notes from any issuer, Collective Investment Schemes (including those managed by Janus Henderson), certificates of deposit, bank term deposits and other money market investments (including cash funds), covered bonds, US agency mortgage-backed securities (that will not be deemed to form part of the minimum 70% ABS investment), Real Estate Investment Trusts (REITs) and other secured finance investments. The Fund may invest up to 20% in total return swaps. The Investment Manager may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently. The Fund is actively managed and makes reference to ESTR as this forms the basis of the Fund's performance target. The Investment Manager has complete discretion to choose investments for the Fund and is not constrained by a benchmark.

Investment strategy

The Investment Manager invests in a diversified portfolio of ABS and other investments, with a focus on floating rate or low interest rate sensitivity. The Investment Manager will seek to generate the majority of return from income whilst maintaining a focus on investments that are expected to have strong fundamental credit resilience over the long term. As the Fund has no benchmark to follow, the Investment Manager has flexibility to utilise its broad expertise across securitisation markets to vary the portfolio mix based on relative value and the desired risk and return profile for the Fund.

Fund specific risks

An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital. If this happens or the market perceives this may happen, the value of the bond will fall. When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment. Asset-Backed Securities (ABS) and other forms of securitised investments may be subject to greater credit / default, liquidity, interest rate and prepayment and extension risks, compared to other investments such as government or corporate issued bonds and this may negatively impact the realised return on investment in the securities. Some bonds (callable bonds) allow their issuers the right to repay capital early or to extend the maturity. Issuers may exercise these rights when favourable to them and as a result the value of the Fund may be impacted. Derivatives may be used to help achieve the investment objective. This can result in leverage (higher levels of debt), which can magnify an investment outcome. Gains or losses may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations. When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies. Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses. Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

Glossary

Distribution Yield
The Distribution Yield reflects the amounts that may be expected to be distributed over the next 12 months as a percentage of the mid-market share price of the fund at the date shown.

Duration
Duration can measure how long it takes (in years) for an investor to be repaid a bond's price by the bond's total cash flows. Duration can also measure the sensitivity of a bond's or fixed-income portfolio's price to changes in interest rates. The longer a bond's duration, the higher its sensitivity to changes in interest rates, and vice versa. 'Going short duration' refers to reducing the average duration of a portfolio, while 'going long duration' refers to extending a portfolio's average duration.

Underlying Yield
The Underlying Yield reflects the annualised income net of expenses of the fund (calculated in accordance with relevant accounting standards) as a percentage of the mid-market share price of the fund at the date shown.

Weighted Average Life (WAL)
The average time taken (in years) for the principal to be repaid for securitised assets, or the probable time to maturity for non-securitised assets. Securitised assets, also known as 'asset backed' securities, represent a pool of other interest bearing assets such as loans and mortgages. The value is based on the cash flows of the underlying assets.

Yield to worst
The lowest yield a bond with a special feature (such as a call option) can achieve provided the issuer does not default. When used to describe a portfolio, this statistic represents the weighted average across all the underlying bonds held.

Any investment application will be made solely on the basis of the information contained in the Fund's prospectus (including all relevant covering documents), which will contain investment restrictions. This is a marketing communication and is intended as a summary only and potential investors must refer to the prospectus of the UCITS and to the KID before investing. Information is provided on the Fund on the strict understanding that it is only for clients resident outside the USA. A copy of the Fund's prospectus and key information document can be obtained from Janus Henderson Investors UK Limited in its capacity as Investment Manager and Distributor. Nothing in this communication is intended to or should be construed as advice. This communication does not constitute an offer or a recommendation to sell or purchase any investment. It does not form part of any contract for the sale or purchase of any investment. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. Deductions for charges and expenses are not made uniformly throughout the life of the investment but may be loaded disproportionately at subscription. If

you withdraw from an investment up to 90 calendar days after subscribing you may be charged a Trading Fee as set out in the Fund's prospectus. This may impact the amount of money which you will receive and you may not get back the amount invested. The value of an investment and the income from it can fall as well as rise significantly. Some Sub-Funds of the Fund can be subject to increased volatility due to the composition of their respective portfolios. Tax assumptions and reliefs depend upon an investor's particular circumstances and may change if those circumstances or the law change. If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially. The Fund is a recognised collective investment scheme for the purpose of promotion into the United Kingdom. Potential investors in the United Kingdom are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment in the Fund and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme. The Fund is a foreign collective investment scheme registered in the Netherlands with the Authority for the Financial Markets and in Spain with the CNMV with the number 353. A list of distributors is available at www.cnmv.es. For sustainability related aspects please access Janushenderson.com. We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes. With effect from 1 January 2023, the Key Investor Information document (KIID) changed to the Key Information Document (KID), except in the UK where investors should continue to refer to the KIID.
