HORIZON DISCOVERING NEW ALPHA FUND

H2 HGBP ISIN LU3154198678

Investment objective

The Fund aims to provide capital growth over the long term. Performance target: To outperform the MSCI ACWI Index, after the deduction of charges, over any 5-year period.

For the fund's investment policy, refer to the Additional fund information on page 3.
Past performance does not predict future returns.

Performance (%)

Due to current regulations we are only permitted to show performance if the share class is more than one year old.
The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested.

Fees & charges (%)

Annual management charge (AMC)	0.60
Estimated ongoing charge (OCF)	1.07

Ongoing charges AMC included data is not available for newly launched share classes.

All ongoing charges stated are as per latest published report and accounts.

Fund charges will impact the value of your investment. In particular, the ongoing charges applicable to each fund will dilute investment performance, particularly over time. For further explanation of charges please visit our Fund Charges page at www.janushenderson.com.

Under some circumstances initial charges may apply. Please refer to the Prospectus for more details.

Additional fund information

Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change. The performance data does not take account of the initial charge and Janus Henderson does not currently levy a redemption charge. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%. This is a Luxembourg SICAV Fund, regulated by the Commission de Surveillance du Secteur Financier (CSSF). Note that any differences among portfolio securities currencies, share class currencies and costs to be paid or represented in currencies other than your home currency will expose you to currency risk. Costs and returns may increase or decrease as a result of currency and exchange rate fluctuations. To obtain our prospectus and any additional information please visit our website on: www.janushenderson.com. Investment into the fund will acquire units/shares of the fund itself and not the underlying assets owned by the fund. Cash balances and exposures are based on settled and unsettled trades as at the reporting date.

Investment policy

The Fund invests at least 80% of its net assets in equities or equity-related instruments of companies worldwide, including up to 20% of its net assets in emerging markets, whose products and services are considered by the Investment Manager to contribute positively to addressing global challenges including population growth, ageing population, resource constraints and climate change. The Fund may invest in companies of any size, in any country and in any industry, but may have a bias towards smaller capitalisation companies. The Fund may invest up to 20% of its net assets in depositary receipts (including American Depositary Receipts and Global Depositary Receipts) and Real Estate Investment Trusts (REITs). The Fund may invest up to 20% of its assets in China A-Shares. The Fund may also invest in other assets including investment grade government bonds, associated derivative instruments, cash and money market instruments. The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the MSCI ACWI Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's Performance Target. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

Investment strategy

The Investment Manager, through a thematic framework of stock selection, seeks to construct a global portfolio of companies that are considered to benefit from structural changes in the global economy through positively addressing global challenges, with the potential to drive superior long term capital growth. The global challenges identified by the Investment Manager include but may not be limited to the following examples: population growth, ageing population, resource constraints and climate change. The Investment Manager will optimise portfolio construction to minimise geographic, sector and style biases versus the benchmark in order to focus on stock selection as the primary driver of superior returns. While the Fund will invest in companies of any size, given the investment approach to identify future, long term high growth companies, the Fund may have a bias towards smaller capitalisation companies.

Fund specific risks

Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result. Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses. Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations. If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates. When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies. Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses. Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider. This fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this fund.

Glossary

Active share
This measures how much a portfolio's holdings differ from its benchmark index. For example, a portfolio with an active share of 60% indicates that 60% of its holdings differ from its benchmark, while the remaining 40% mirror the benchmark.

Historic Yield
The Historic Yield reflects distributions declared over the past 12 months as a percentage of the mid-market share price, as at the date shown.

Price-to-book (P/B) ratio
A financial ratio used to value a company's shares. It is calculated by dividing a company's market value (share price) by the book value of its equity (value of the company's assets on its balance sheet). A P/B value <1 can indicate a potentially undervalued company or a declining business. The higher the P/B ratio, the higher the premium the market is willing to pay for the company above the book (balance sheet) value of its assets.

Price-to-earnings (P/E) ratio
A popular ratio used to value a company's shares, compared to other stocks, or a benchmark index. It is calculated by dividing the current share price by its earnings per share.

Weighted average market cap
The average market capitalisation of a holding, weighted by the size of that position in a portfolio or index.

Janus Henderson
INVESTORS

This product integrates ESG but does not pursue a sustainable investment strategy or have a sustainable investment objective or otherwise take ESG factors into account in a binding manner. ESG integration is the practice of incorporating material environmental, social and governance (ESG) information or insights in a non-binding manner alongside traditional measures into the investment decision process to improve long-term financial outcomes of portfolios. ESG related research is one of many factors considered within the investment process and in this material we seek to show why it is financially relevant. UK investors please note: This product is not authorised in the United Kingdom but overseas; therefore the Financial Ombudsman Service is unlikely to consider complaints related to the scheme, its operator or its depositary. Any claims for losses relating to the operator and the depositary of the scheme are unlikely to be covered under the compensation scheme and prospective investors should consider getting financial advice before deciding to invest. Please read the prospectus of the scheme for more information. Any investment application will be made solely on the basis of the information contained in the Fund's prospectus (including all relevant covering documents), which will contain investment restrictions. This is a marketing communication and is intended as a summary only and potential investors must refer to the prospectus of the UCITS and to the KID before investing. Information is provided on the Fund on the strict understanding that it is only for clients resident outside the USA. A copy of the Fund's prospectus and key information document can be obtained from Janus Henderson Investors UK Limited in its capacity as Investment Manager and

Distributor. Nothing in this communication is intended to or should be construed as advice. This communication does not constitute an offer or a recommendation to sell or purchase any investment. It does not form part of any contract for the sale or purchase of any investment. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. Deductions for charges and expenses are not made uniformly throughout the life of the investment but may be loaded disproportionately at subscription. If you withdraw from an investment up to 90 calendar days after subscribing you may be charged a Trading Fee as set out in the Fund's prospectus. This may impact the amount of money which you will receive and you may not get back the amount invested. The value of an investment and the income from it can fall as well as rise significantly. Some Sub-Funds of the Fund can be subject to increased volatility due to the composition of their respective portfolios. Tax assumptions and reliefs depend upon an investor's particular circumstances and may change if those circumstances or the law change. If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially. The Fund is a recognised collective investment scheme for the purpose of promotion into the United Kingdom. Potential investors in the United Kingdom are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment in the Fund and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme. The Fund is a foreign collective investment scheme registered in the Netherlands with the Authority for the Financial Markets and in Spain with the CNMV with the number 353. A list of distributors is available at www.cnmv.es. For sustainability related aspects please access Janushenderson.com. We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes. With effect from 1 January 2023, the Key Investor Information document (KIID) changed to the Key Information Document (KID), except in the UK where investors should continue to refer to the KIID.
