HORIZON GLOBAL FUSION EQUITY FUND

A2 HEUR ISIN LU3456345092

Investment objective

The Fund aims to provide capital growth over the long term (5 years or more).
Performance Target: To outperform the MSCI ACWI Index, after the deduction of charges, over any 5-year period.

For the fund's investment policy, refer to the Additional fund information on page 3.
Past performance does not predict future returns.

Performance (%)

Due to current regulations we are only permitted to show performance if the share class is more than one year old.
The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested.

Fees & charges (%)

Annual management charge (AMC)	0.65
Estimated ongoing charge (OCF)	1.09

Ongoing charges AMC included data is not available for newly launched share classes.

All ongoing charges stated are as per latest published report and accounts.

Fund charges will impact the value of your investment. In particular, the ongoing charges applicable to each fund will dilute investment performance, particularly over time. For further explanation of charges please visit our Fund Charges page at www.janushenderson.com.

Under some circumstances initial charges may apply. Please refer to the Prospectus for more details.

Additional fund information

Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change. The performance data does not take account of the initial charge and Janus Henderson does not currently levy a redemption charge. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%. This is a Luxembourg SICAV Fund, regulated by the Commission de Surveillance du Secteur Financier (CSSF). Note that any differences among portfolio securities currencies, share class currencies and costs to be paid or represented in currencies other than your home currency will expose you to currency risk. Costs and returns may increase or decrease as a result of currency and exchange rate fluctuations. To obtain our prospectus and any additional information please visit our website on: www.janushenderson.com. Investment into the fund will acquire units/shares of the fund itself and not the underlying assets owned by the fund. Cash balances and exposures are based on settled and unsettled trades as at the reporting date.

Investment policy

The Fund pursues its objective by blending Active and Passive Strategies. The allocation to each strategy is dynamically adjusted within a set range, based on the Investment Manager's assessment of market conditions. Typically, in normal market conditions, the Fund will allocate between 35% and 65% of its net asset value to the Passive Strategy, and between 35% and 65% of its net asset value to the Active Strategy. If market conditions are unfavourable or in other exceptional situations, the Fund may adjust its allocations to each Strategy to range between 30% to 70% of the Fund's net asset value. The Fund may also invest in investment grade government bonds and associated derivative instruments, cash and Money Market Instruments. The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently. The Active Strategy may invest in shares of companies (also known as equities) of any size, in any country and in any industry. Equities may include China A-Shares, directly through the Stock Connect Programs and other eligible exchanges or indirectly through derivative instruments. The Passive Strategy sleeve of the Fund aims to track the performance of the Solactive United States 200 Index (ISIN:DE000SL0GKV6) (the "Passive Index"). The Passive Index intends to track the performance of the largest 200 companies from the US stock market. The Passive Strategy aims to achieve a level of tracking error versus the Passive Index that will not exceed 4%. The Passive Index is a price return index which reflects the market price movements of the components of the index, disregarding any payments made in respect of the components. More information about the composition of the Passive Index and its operating rules are available at https://www.solactive.com/indices/. The Passive Strategy will apply a physical replication methodology and may, at times, use a synthetic replication to get exposure to the Passive Index. The Fund is managed using a combination of active and passive strategies, with overall reference to the MSCI ACWI Index. This index is broadly representative of the types of companies in which the Fund may invest and serves as the basis for the Fund's performance target. The passively managed portion of the Fund seeks to replicate the performance of the Passive Index, while the actively managed portion allows the Investment Manager discretion to select investments without reference to a specific index. The Investment Manager has discretion to choose investments for the Fund, and in the case of the Active Strategy with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

Investment strategy

The portfolio will be constructed from a combination of Active and Passive Strategies. The Investment Manager uses active strategies in markets where active management has the greatest potential to add value, such as international equities and US small- and mid-cap, and low-cost passive strategies in more competitive areas, such as US large-capitalisation.

Fund specific risks

Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result. Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses. High exposure to a particular country or geographical region carries a higher level of risk than a more broadly diversified portfolio. Derivatives may be used with the aim of reducing risk or managing the portfolio more efficiently. However, this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations. If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates. When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies. Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses. The performance of the Fund is not expected to precisely match the performance of the index at all times and the deduction of fees and expenses means the Fund might deliver a lower total return than the index. Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

Glossary

Historic Yield
The Historic Yield reflects distributions declared over the past 12 months as a percentage of the mid-market share price, as at the date shown.

Janus Henderson
INVESTORS

This product integrates ESG but does not pursue a sustainable investment strategy or have a sustainable investment objective or otherwise take ESG factors into account in a binding manner. ESG integration is the practice of incorporating material environmental, social and governance (ESG) information or insights in a non-binding manner alongside traditional measures into the investment decision process to improve long-term financial outcomes of portfolios. ESG related research is one of many factors considered within the investment process and in this material we seek to show why it is financially relevant. Any investment application will be made solely on the basis of the information contained in the Fund's prospectus (including all relevant covering documents), which will contain investment restrictions. This is a marketing communication and is intended as a summary only and potential investors must refer to the prospectus of the UCITS and to the KID before investing. Information is provided on the Fund on the strict understanding that it is only for clients resident outside the USA. A copy of the Fund's prospectus and key information document can be obtained from Janus Henderson Investors UK Limited in its capacity as Investment Manager and Distributor. Nothing in this communication is intended to or should be construed as advice. This communication does not constitute an offer or a recommendation to sell or purchase any investment. It does not form part of any contract for the sale or purchase of any investment. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. Deductions for charges and expenses are not made uniformly throughout the life of the investment but may be loaded disproportionately at subscription. If you withdraw from an investment up to 90 calendar days after subscribing you may be charged a Trading Fee as set out in the Fund's prospectus. This may impact the amount of money which you will receive and you may not get back the amount invested. The value of an investment and the income from it can fall as well as rise significantly. Some Sub-Funds of the Fund can be subject to increased volatility due to the composition of their respective portfolios. Tax assumptions and reliefs depend upon an investor's particular circumstances and may change if those circumstances or the law change. If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially. The Fund is a recognised collective investment scheme for the purpose of promotion into the United Kingdom.

Potential investors in the United Kingdom are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment in the Fund and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme. The Fund is a foreign collective investment scheme registered in the Netherlands with the Authority for the Financial Markets and in Spain with the CNMV with the number 353. A list of distributors is available at www.cnmv.es. For sustainability related aspects please access Janushenderson.com. We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes. With effect from 1 January 2023, the Key Investor Information document (KIID) changed to the Key Information Document (KID), except in the UK where investors should continue to refer to the KIID.
