What is this product?

Type

Janus Henderson US Balanced 2026 Fund is a sub-fund of Janus Henderson Capital Funds plc, an investment company with variable capital organised under the laws of Ireland. Janus Henderson Capital Funds plc qualifies as an undertaking for collective investment in transferable securities (UCITS).

Term

This investment has a maturity date of 18 November 2026. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

Objectives

The Fund aims to provide a total return, based on a combination of 2.5% income and capital growth. Neither the income nor capital value at maturity is guaranteed. The Fund is designed to be held to 18 November 2026 (Maturity) and investors should be prepared to remain invested until such date. The Fund invests between 25% and 45% of its assets in shares (equities) and between 55% and 75% of its assets in bonds or cash. Holdings in cash may result from profits due to share class hedging against the base currency, which shall only be held on a temporary basis until such holding is reinvested. At least 75% of the Fund is invested in US assets. The Sub-Investment Adviser actively adjusts the allocation between equities and bonds over time based on a view of overall market risk and the valuations of bond and equity markets. The Fund may invest up to 25% of its assets in high yield (non-investment grade) bonds. The Sub-Investment Adviser may use derivatives (complex financial instruments) to reduce risk, to manage the Fund more efficiently, or to generate additional capital or income for the Fund. The Fund may also invest in other assets including cash and money market instruments. The Fund is actively managed without reference to a benchmark. The Sub-Investment Adviser has a high degree of freedom to choose individual investments for the Fund. Distributions will be calculated at the discretion of the Manager with a view to providing a consistent level of distribution. Distributions include all income, and can consist of realised and unrealised capital gains, which may include a portion of original capital invested. Charges will be deducted from capital. You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Fund's Prospectus. The Fund's Depositary is J.P. Morgan SE, Dublin Branch.

Intended Retail Investor

Investors who understand the Fund's risks, would like an investment that combines both growth and an income over time from investing in both equities and bonds, and intend to invest their money for at least five years. This Fund is designed to be used only as a component in a diversified investment portfolio and is not designed for investors who are unable to accept more than a minimal loss of their investment.

What are the risks and what could I get in return?

Risk Indicator

Lower Risk 1 2 **3** 4 5 6 7 Higher Risk

The risk indicator assumes you keep the product until 18 November 2026.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the PRIIPs manufacturer to pay you.

If the product currency differs from your home currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Details of all relevant risks can be found in the Fund's prospectus, available at www.janushenderson.com

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 7 months

Example Investment: EUR 10,000

Scenarios		If you exit after the recommended holding period
Minimum	**There is no minimum guaranteed return. You could lose some or all of your investment.**	
Stress	**What you might get back after costs**	7,190 EUR
	Average return each year	-28.14%
Unfavourable	**What you might get back after costs**	8,350 EUR
	Average return each year	-16.47%
Moderate	**What you might get back after costs**	10,000 EUR
	Average return each year	0.00%
Favourable	**What you might get back after costs**	11,400 EUR
	Average return each year	13.96%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between February 2022 and September 2022.

The moderate scenario occurred for an investment in the benchmark between October 2018 and May 2019.

The favourable scenario occurred for an investment between March 2020 and October 2020.

What happens if Janus Henderson Investors Europe S.A. is unable to pay out?

You may face a financial loss should the Manufacturer or Depositary, J.P. Morgan SE, Dublin Branch, default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year, you would get back the amount that you invested (0 % annual return).
- EUR 10,000 is invested.

	If you exit after the recommended holding period
Total costs	109 EUR
Cost impact (*)	1.1% each year

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
