

BALANCED FUND

Class A2 EUR ISIN: IE00BK26DX94
Fund Currency: USD Share Class Currency: EUR

Janus Henderson
INVESTORS

A sub-fund of Janus Henderson Capital Funds plc, an Irish Investment Company managed by Henderson Management S.A.

Objective and investment policy

Objective

The Fund aims to provide a return, from a combination of capital growth and income, while seeking to limit losses to capital (although not guaranteed).

Performance target: To outperform the 'Balanced' Index (55% S&P 500 + 45% Bloomberg Barclays US Aggregate Bond) by 1.5% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests between 35%-65% of its assets in the shares (equities) of mainly US companies, and between 35%-65% of its assets in bonds of any quality, including high yield (non-investment grade) bonds and loans (non-investment grade) issued mainly by US companies or the US government.

The Fund may also invest in other assets including companies and bonds outside the US, cash and money market instruments.

The investment manager may use derivatives (complex financial instruments) to reduce risk, to manage the Fund more efficiently, or to generate additional capital or income for the Fund.

The Fund is actively managed with reference to the 'Balanced' Index (55% S&P 500 + 45% Bloomberg Barclays US Aggregate Bond), which is broadly representative of the companies and bonds in which it may

invest, as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the Fund.

Strategy

The investment manager follows an actively-managed approach which blends mainly US equities and bonds, with the ability to position defensively when market volatility is anticipated. The Fund has the flexibility to migrate between 35% and 65% exposure to equities, depending on where the managers are finding the best individual security opportunities, as well as their assessment of broader economic conditions. The equity side of the portfolio seeks long-term growth, while the fixed income portion seeks to provide ballast as required.

Distribution policy This share class accumulates income which is retained within the price of the share class.

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Fund Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in net asset value in the past 5 years than those in lower categories. The lowest category does not mean risk free.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

Equities Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Default Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital to the Fund.

If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise. This risk is generally greater the longer the maturity of a bond investment.

High Yield Bonds The Fund invests in high yield (non-investment grade) bonds and while these generally offer higher rates of interest than investment grade bonds, they are more speculative and more sensitive to adverse changes in market conditions.

Country or Region If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

Derivatives The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparties The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund. For more information please see the Fund Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	5.00%
Exit Charge	0.00%

* The charges shown are maximum figures. In some cases you may pay less.

Past performance

Charges taken from the Fund over a year

Ongoing Charges	1.91%
-----------------	-------

The ongoing charge figure is estimated because the share class has insufficient track record for us to calculate it exactly.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

The ongoing charges includes fees payable to Distributors. Where the ongoing charges exceed the target outperformance relative to the benchmark the return is likely to be below the benchmark return, even when the Fund's outperformance target (before the deduction of charges) has been achieved.

For more information please see the Fund Prospectus.

The past performance is calculated in EUR.

The Fund was launched in December 1998 and the share class was launched in December 2019.

Insufficient data is available to provide past performance figures. Past performance is not a guide to future performance.

Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the Share Class after the deduction of charges.

The Fund does not aim to track the performance of the index.

Practical information

The depositary is JP Morgan Bank (Ireland) Plc.

Janus Henderson Balanced Fund is a sub-fund of Janus Henderson Capital Funds plc, an umbrella fund with segregated liability between sub-funds. The assets of this Fund are segregated from other sub-funds of Janus Henderson Capital Funds plc. This document describes a share class of the Fund.
