

ABSOLUTE RETURN INCOME FUND

Class A2 USD ISIN: IE00BZ76W439
 Fund Currency: USD Share Class Currency: USD

A sub-fund of Janus Henderson Capital Funds plc, an Irish Investment Company managed by Henderson Management S.A.

Objective and investment policy

Objective

The Fund aims to provide positive, consistent returns (although not guaranteed) above those that would be earned on cash deposits over time.

Performance target: To outperform the FTSE 3-Month US Treasury Bill Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in a global portfolio of bonds of any quality, including high yield (non-investment grade) bonds and asset-backed and mortgage-backed securities, issued by governments or companies. The Fund may invest directly or via derivatives (complex financial instruments).

The Fund may also invest in other assets including bonds of other types from any issuer, preference shares, cash and money market instruments. In certain market conditions, the Fund may invest more than 35% of its assets in government bonds issued by any one body. The Fund will not invest more than 15% of its assets in high yield (non-investment grade) bonds and will never invest in bonds rated lower than B- or B3 (credit agency ratings), or if unrated deemed to be of a comparable quality by the investment manager.

The investment manager may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the FTSE 3-Month US Treasury Bill Index as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the Fund.

Strategy

The investment manager manages the Fund to act as a 'risk reducer', aiming to provide consistent positive absolute returns in excess of cash with low volatility and capital stability across economic and credit cycles. Exposure to shorter maturity investment grade bonds across global fixed income markets creates steady income generation which is balanced with tactical trades that aim to dampen overall volatility and take advantage of any market mispricing and dislocations. The Fund is benchmark agnostic seeking the best risk adjusted opportunities across sectors and countries.

Distribution policy This share class accumulates income which is retained within the price of the share class.

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Fund Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 2 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in net asset value in the past 5 years than those in lower categories. The lowest category does not mean risk free.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

Default Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital to the Fund. If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise. This risk is generally greater the longer the maturity of a bond investment.

Prepayment and Extension Callable debt securities, such as some asset-backed or mortgage-backed securities (ABS/MBS), give issuers the right to repay capital before the maturity date or to extend the maturity. Issuers may exercise these rights when favourable to them and as a result the value of the fund may be impacted.

Derivatives and Leverage The Fund may use derivatives towards the aim of achieving its investment objective. This can result in 'leverage', which can magnify an investment outcome and gains or losses to the Fund may be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund or you invest in a share class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates.

Currency Hedging When the Fund, or a hedged share class, seeks to mitigate exchange rate movements of a currency relative to the base currency, the hedging strategy itself may create a positive or negative impact to the value of the Fund due to differences in short-term interest rates between the currencies.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparties The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund. For more information please see the Fund Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Practical information

The depositary is JP Morgan Bank (Ireland) Plc.

Janus Henderson Absolute Return Income Fund is a sub-fund of Janus Henderson Capital Funds plc, an umbrella fund with segregated liability between sub-funds. The assets of this Fund are segregated from other sub-funds of Janus Henderson Capital Funds plc. This document describes a share class of the Fund. The prospectus, annual and semi-annual reports are prepared for the entire umbrella.

Further information about the Fund, copies of its prospectus, annual and semi-annual reports may be obtained free of charge in English (the prospectus is also available in French, German, Italian, Swiss German and Swiss English) from Janus Henderson Capital Funds plc, 10 Earlsfort Terrace, Dublin 2, Ireland or visit www.janushenderson.com.

The details of the up-to-date remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, are available on www.janushenderson.com. A paper copy of the remuneration policy will be made available free of charge upon request.

* The charges shown are maximum figures. In some cases you may pay less.

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing Charges | 0.95% |
|-----------------|-------|

The ongoing charge figure is estimated because of the recent changes made to this share class.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

For more information please see the Fund Prospectus.

The past performance is calculated in USD.

The Fund was launched in May 2016 and the share class was launched in May 2016.

Past performance is not a guide to future performance.

The past performance shown in the chart takes into account all charges except one-off charges.

Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the Share Class after the deduction of charges.

The Fund does not aim to track the performance of the index.

The latest share prices, as well as further practical information, are available at the registered office of the administrator of Janus Henderson Capital Funds plc, JP Morgan Administration Services (Ireland) Limited, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, Ireland, during normal business hours.

Generally you may, with the consent of the directors, switch your shares to the corresponding share class of another sub-fund of Janus Henderson Capital Funds plc. Further information can be found in the Exchange of Shares section of the prospectus.

This Fund is subject to tax laws and regulations of Ireland. Depending on your home country of residence, this might have an impact on your personal tax position. For further details, please speak to your adviser.

Janus Henderson Capital Funds plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.
