### Fund overview

A globally diversified fixed income fund that aims to generate positive returns above those earned on cash-equivalent investments. There is a focus on low volatility, with the managers applying a capital preservation mindset to their approach and typically favouring low duration (interest rate sensitivity). Free from benchmark constraints, value is sought across sectors and geographies, identifying strategies priced for the best return potential in the current market environment. Please note a positive return and capital preservation are not guaranteed.

### Investment process

The portfolio comprises a core of actively-managed global fixed income securities (yield foundation), complemented by a carefully selected group of derivative-based trade ideas (structural alpha).

#### Yield foundation

The managers believe in the freedom of a globally unconstrained approach to construct an actively-managed, diverse portfolio of predominantly investment grade assets.

#### Structural alpha

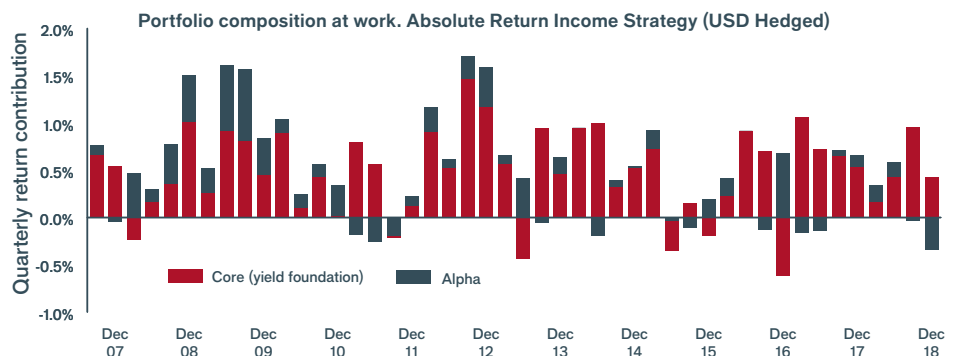

Risk-limited in number and size, the alpha element of the portfolio comprises select derivative trades aimed at enhancing returns or mitigating risks.

### Introducing the team

The fund draws on the absolute return income specialists based in the US and Australia, and the broader Janus Henderson fixed income platform covering global bonds and global credit research. First launched in 2007, strategy assets had grown to US\$9.3 billion by 31 December 2018.

### Established track record

Source: Janus Henderson Investors, 30 June 2007 to 31 December 2018. Quarterly returns contribution in USD, gross of fees. From 30 June 2016, performance is for the Janus Henderson Absolute Return Income (USD) composite. Prior to the launch of the USD base currency fund, the performance presented is simulated USD hedged returns of the Kapstream Absolute Return Income (AUD) composite, calculated using month-end spot AUD/USD f/x and 1-month forward points as quoted by Bloomberg and does not represent the investment performance of the actual account of any investor. The Janus Henderson Absolute Return Income Fund (EUR) will vary from the example shown. GIPS data are available upon request for the strategy presented. This is for illustrative purposes only.

**Past performance is not a guide to future performance. Using derivatives may involve a higher level of risk. The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested.**

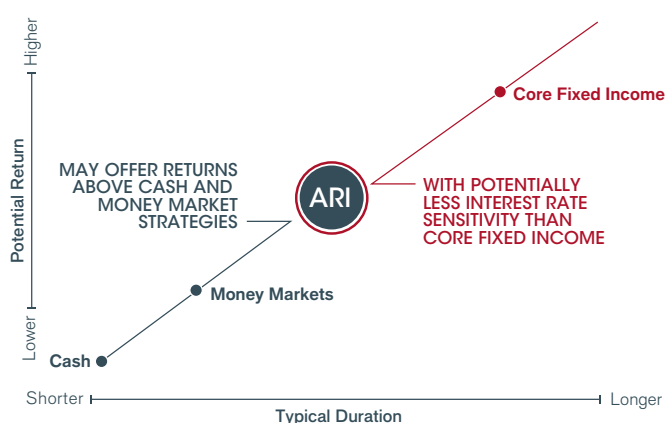

# Janus Henderson Absolute Return Income Fund (EUR)
