Unless otherwise defined herein, all other capitalised terms used herein shall bear the same meaning as capitalised terms used in the prospectus of the Janus Henderson Capital Funds plc (the “Company”) dated 28 November 2019 (the “Prospectus”). A copy of the Prospectus is available upon request during normal business hours from the Administrator. In accordance with the current policy of the Central Bank of Ireland (the “Central Bank”), this document has not been reviewed by the Central Bank.

4 February 2020

Dear Shareholder,

**RE: Notification of amendment to the investment policy of the Janus Henderson US Forty Fund (the “Fund”), a sub-fund of the Company**

We are writing to you as a Shareholder in the Fund to inform you of the following proposals to amend the investment policy of the Fund to introduce a performance target for the Fund and, in line with recent regulatory guidelines, to include additional disclosure in the Prospectus on the use of a benchmark in managing the Fund.

- The performance target for the Fund will be to outperform the Russell 1000® Growth Index (the “Benchmark”) by at least 2.5% per annum, before the deduction of charges, over any 5 year period.
- The Fund is actively managed with reference to the Benchmark, which is broadly representative of the companies in which the Fund may invest. The Sub-Investment Adviser has a high degree of freedom to exercise conviction, which may result in a high degree of bias within the portfolio. The Fund may hold companies which are not within the Benchmark.

In addition, the Prospectus is being amended to reduce the amount which the Fund can invest in the securities of non-US issuers, which are generally traded on Regulated Markets that are not considered Developing Markets, from 25% to 20% of its net asset value. This proposed change is being made to more accurately reflect the current investment portfolio of the Fund.

Finally, the disclosure on the Fund’s investment strategy is being enhanced to provide that the Sub-Investment Adviser seeks to identify strong businesses with sustainable competitive advantages and improving returns on capital. Companies are considered principally on their own fundamental qualitative and quantitative characteristics. Commonly referred to as stock picking or “bottom-up” investing, portfolios of fundamental-based investment funds are built one security at a time following in house research into each company. Areas of focus can include the company's management, financials, competitive strengths and weaknesses, earnings growth prospects and numerous other metrics etc. This approach rests on a belief that some companies have inherent strengths for creating shareholder value over time, have superior prospects than their peer groups and should therefore outperform even in challenging industrial and economic circumstances. The purpose of a fundamental investment approach is to identify and invest in such companies.

## **Effective Date of the changes:**

Subject to regulatory approval, the revised Prospectus is expected to take effect on or around 18 February 2020 (the “Effective Date”). The Company will confirm the effective date of the change by
