August 2020
2020年8月

- Janus Henderson Horizon Fund, as an umbrella fund, has within it different sub-funds investing primarily in equities or debt securities, each with different risk profiles.
- Investments involve varying degree of investment risks (e.g. liquidity, market, economic, political, regulatory, taxation, financial, interest rate, hedging and currency risks). In extreme market conditions, you may lose your entire investment.
- Investments in financial derivatives instruments ("FDIs") (such as futures, swaps, options, forwards, structured financial derivatives, equity swaps and warrants) involve specific risks (e.g. counterparty, liquidity, leverage, volatility, valuation, short position and over-the-counter transaction risk). The sub-funds may use FDIs to reduce risk and to manage the sub-funds more efficiently. Some sub-funds may also use FDIs to form an important part of the investment strategy, generate additional income or with the aim of making investment gains. Such investments are subject to higher level of risk and may result in substantial loss.
- Some sub-funds may invest in a single market (e.g. China) /region (e.g. Asia) /industry sector (e.g. technology, property) and may subject them to higher concentration risk.
- Some sub-funds may invest in China securities i.e. China A-Shares and China A-Shares access products, and may be exposed to currency, political, taxation and market risks.
- Some sub-funds may invest in Eurozone (in particular Portugal, Italy, Ireland, Greece and Spain) securities and may suffer from European sovereign debt crisis risk.
- Some sub-funds may invest in emerging markets which may involve increased risks. These investments may be less liquid and more volatile.
- Some sub-funds may invest in bonds and other debt securities. They may be exposed to fluctuations in debt securities markets and are subject to default/credit risk of the bond issuers, interest rate, credit rating, downgrading, valuation and liquidity risks.
- Some sub-funds may be subject to various risks relating to sustainable investment approach, including concentration risk, subjective judgment in investment selection, exclusion risk, risk of reliance on corporate data or third-party information and change in nature of investments.
- In respect of distribution shares classes of some sub-funds, the directors may at its discretion pay distributions (i) out of gross investment income and net realized/unrealized capital gains while charging all or part of the fees and expenses to the capital, resulting in an increase in distributable income for the payment of distributions and therefore, the sub-fund may effectively pay distributions out of capital, and (ii) additionally, for certain share class of some sub-funds, out of original capital invested. This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment, and may result in an immediate reduction of the sub-fund's net asset value per share.

Important note:

- Basis of calculating the “net distributable income”: Net distributable income for the period attributable to each Sub-Fund is the income (i.e. dividend income and interest income) less fees and expenses paid out of capital and income. Net unrealised gains are excluded from the computation of net distributable income.
- Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table above. You should read the relevant offering document (including the key facts statement) of the Sub-Fund for further details including the risk factors.
- Dividend amount or dividend rate is not guaranteed
- Distribution Share Classes may differ in terms of their distribution frequency. Distribution Share Classes may distribute monthly, quarterly or annually determined at the launch of the relevant Share Class. The Directors reserve the right to increase or decrease the frequency of distribution payments for a Distribution Share Class at their discretion.
- Dividend per share rounded to 4 decimal places

重要事項：

- 計算「可供分派淨收益」的依據：各子基金應佔的期內可供分派收益淨額為收入（即股息收入及利息收入）減去從資本及收入中支付的費用及開支。於計算可供分派收益淨額時並無計入未變現收益淨額。
- 請注意，正數分派收益並不代表正面回報。投資者不應僅基於上表所載的資料作出任何投資決定。有關進一步詳情（包括風險因素），閣下應閱覽子基金的相關發售文件（包括主要事實陳述）。
- 股息金額及派息率並不獲保證。
- 分派股份類別在其分派頻率方面可能有所不同。分派股份類別可每月、每季或每年分派，並於有關股份類別推出時決定。董事保留權利按其酌情決定權增加或減少作出分派股份類別的分派支付的頻率。
