This financial report covers Janus Henderson Australian Fixed Interest Fund - Institutional (ARSN 100 098 413) as an individual entity.

The Responsible Entity of Janus Henderson Australian Fixed Interest Fund - Institutional is Janus Henderson Investors (Australia) Funds Management Limited (ABN 43 164 177 244).

The Responsible Entity's registered office is:

Level 36, Grosvenor Place, 225 George Street, Sydney NSW 2000.

Directors' report

The directors of Janus Henderson Investors (Australia) Funds Management Limited, the Responsible Entity of Janus Henderson Australian Fixed Interest Fund - Institutional (the "Fund"), present their report together with the financial report of the Fund, for the year ended 30 June 2021.

Principal activities

The Fund invests predominantly in interest bearing securities and derivatives in accordance with the provisions of the Fund's Constitution.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

The various service providers for the Fund are detailed below:

Service	Provider
Responsible Entity	Janus Henderson Investors (Australia) Funds Management Limited
Investment Manager	Janus Henderson Investors (Australia) Institutional Funds Management Limited
Custodian and Administrator	BNP Paribas Securities Services
Statutory Auditor	PricewaterhouseCoopers

Directors

The following persons held office as directors of Janus Henderson Investors (Australia) Funds Management Limited during or since the end of the year and up to the date of this report:

MJ Gaden	
EYL Cheung	
MJ Kaleel	(resigned 30 April 2021)
GJ Clarke	(appointed 9 April 2021)

Review and results of operations

The Fund continued to invest in accordance with target asset allocations as set out in the Product Disclosure Statement and in accordance with the provisions of the Fund's Constitution.

Results

The performance of the Fund, as represented by the results of its operations, was as follows:

	Year ended	
	30 June 2021	30 June 2020
Total comprehensive income for the year (\$'000)	<u>24,442</u>	<u>133,867</u>
<i>Distributions</i>		
Distribution paid and payable (\$'000)	<u>132,152</u>	<u>147,879</u>
Distribution (cents per unit)	<u>4.923</u>	<u>5.704</u>

Coronavirus (COVID-19) Outbreak

The World Health Organisation (WHO) declared the COVID-19 outbreak a pandemic in March 2020. The pandemic and resulting measures taken to slow the spread of the virus has had an unforeseen impact on business and economic activity across the globe. The fair values of the Fund's assets as at 30 June 2021 reflect the conditions known as at that date. The evolving COVID-19 situation and its impact on investment markets are being closely monitored.

Significant changes in the state of affairs

In the opinion of the directors, there were no significant changes in the state of the affairs of the Fund that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect:

- (i) the operations of the Fund in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of the affairs of the Fund in future financial years.

Directors' report (continued)

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund and in accordance with the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the Fund in regards to insurance cover provided to either the officers of Janus Henderson Investors (Australia) Funds Management Limited or the auditors of the Fund. So long as the officers of Janus Henderson Investors (Australia) Funds Management Limited act in accordance with the Fund's Constitution and the Law, the officers remain fully indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund. The auditors of the Fund are in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 14 to the financial statements.

No fees were paid out of Fund property to the directors of Janus Henderson Investors (Australia) Funds Management Limited during the year.

The number of interests in the Fund held by Janus Henderson Investors (Australia) Funds Management Limited or its associates as at the end of the financial year are disclosed in Note 14 to the financial statements.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 6 to the financial statements.

The value of the Fund's assets and liabilities is disclosed on the Statement of financial position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Rounding of amounts to the nearest thousand dollars

Amounts in the directors' report have been rounded to the nearest thousand dollars in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 4.

This report is made in accordance with a resolution of the directors of Janus Henderson Investors (Australia) Funds Management Limited.

MJ Gaden
Director

On behalf of all the directors of Janus Henderson Investors (Australia) Funds Management Limited
22 September 2021
Sydney, Australia

Auditor's Independence Declaration

As lead auditor for the audit of Janus Henderson Australian Fixed Interest Fund - Institutional for the year ended 30 June 2021, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

A handwritten signature in black ink, appearing to read 'Simon Cuthbert'.

1 General information

These financial statements cover the Janus Henderson Australian Fixed Interest Fund - Institutional (the "Fund") as an individual entity.

The Responsible Entity of the Fund is Janus Henderson Investors (Australia) Funds Management Limited (ABN 43 164 177 244) (the "Responsible Entity"). The Responsible Entity's registered office is Level 36, Grosvenor Place, 225 George Street, Sydney NSW 2000.

The financial statements are presented in the Australian currency.

The Fund seeks to achieve a total return after fees that exceeds the total return of the Bloomberg AusBond Composite 0+Yr Index, over rolling three-year periods.

The financial statements were authorised for issue by the directors of the Responsible Entity on 22 September 2021. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001* in Australia. The Fund is a for-profit unit trust for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for financial assets and liabilities at fair value through profit or loss and net assets attributable to unitholders. The amount expected to be recovered or settled within 12 months after the end of each reporting period in relation to these balances cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2020 that have a material impact on the amounts recognised in the prior periods that will affect the current or future periods.

(iii) New standards, amendments and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2021, and have not been early adopted in preparing these financial statements. These include the amendments to AASB 9, AASB 139, AASB 7, AASB 4 and AASB 16 'Interest Rate Benchmark Reform - Phase 2'. A full assessment has been undertaken for the Fund and none of these are expected to have a material impact on the financial statements of the Fund for the financial year ended 30 June 2021.

(b) Financial assets and liabilities at fair value through profit or loss

(i) Classification

Assets

The Fund classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's portfolio of financial assets is managed and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund uses fair value information to assess performance of the portfolio and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Fund's policy is for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, the debt securities are measured at fair value through profit or loss.

2 Summary of significant accounting policies (continued)

(b) Financial assets and liabilities at fair value through profit or loss (continued)

(i) Classification (continued)

Liabilities

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are held for trading and are consequently classified as financial liabilities at fair value through profit or loss. Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

(ii) Recognition/derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cashflows from the investments have expired or have been transferred and the Fund has transferred substantially all of the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Fund measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within net gains/(losses) on financial instruments at fair value through profit or loss in the period in which they arise.

Further details on how the fair values of financial instruments are determined are disclosed in Note 4 to the financial statements.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

As at the end of the reporting period, there are no financial assets or liabilities offset or with the right to offset in the statement of financial position.

(c) Net assets attributable to unitholders

Units are redeemable at the unitholders' option, however applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders.

The units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the unit back to the Fund. This amount represents the expected cash flows on redemption of these units.

Units are classified as equity when they satisfy the following criteria under AASB 132 *Financial instruments: Presentation*:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and it is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

(d) Cash and cash equivalents

For the statement of cash flows presentation purposes, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

2 Summary of significant accounting policies (continued)

(e) Investment income

Interest Income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) (iii) to the financial statements.

(f) Expenses

All expenses are recognised in the statement of comprehensive income on an accruals basis.

(g) Income tax

Under current legislation, the Fund is not subject to income tax provided they attribute the entirety of their taxable income to the unitholders.

(h) Distributions

Distributions are payable as set out in the Fund's Product Disclosure Statement. Such distributions are determined by the Responsible Entity of the Fund. Distributable income includes capital gains arising from the disposal of financial assets and liabilities at fair value through profit or loss. Unrealised gains and losses on financial assets and liabilities at fair value through profit or loss that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

(i) Foreign currency translation

i) Functional and presentation currency

Items included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Fund competes for capital and is regulated. The Australian dollar is also the Fund's presentation currency.

ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

The Fund does not isolate that portion of gains or losses on securities which is due to changes in foreign exchange rates from that which is due to changes in the market price of securities. Such fluctuations are included with the net gains or losses on financial instruments at fair value through profit or loss.

(j) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost. Trades are recorded on trade date, and normally settled within three business days. A provision for impairment of amounts due from brokers is established when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant broker. Indicators that the amount due from brokers is impaired include significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation and default in payments.

(k) Receivables

Receivables include amounts where settlement has not yet occurred and are measured at their nominal amounts. Amounts are generally received within 30 days of being recorded as receivables. Given the short-term nature of most receivables, the recoverable amount approximates fair value.

(l) Margin accounts

Margin accounts comprise cash held as collateral for derivative transactions. The cash is held by the broker and is only available to meet margin calls.

2 Summary of significant accounting policies (continued)

(m) Payables

Payables are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Fund, and are measured at amortised cost. Amounts are generally paid within 30 days of being recorded as payables. Given the short-term nature of most payables, the payable amount approximates fair value.

(n) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed. Investors can apply and redeem from the Fund on a daily basis.

Unit prices are determined by reference to the net assets per the Fund's Constitution divided by the number of units on issue at or immediately prior to the close of each business day.

(o) Goods and services tax (GST)

The Fund qualifies for Reduced Input Tax Credits (RITC); hence the management fee, has been recognised in profit or loss net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(p) Use of estimates

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Fund's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives or unquoted securities, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For more information on how fair value is calculated please see Note 4 to the financial statements.

(q) Rounding of amounts

The Fund is an entity of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, relating to the 'rounding off' amounts in the financial statements. Amounts in the financial statements have been rounded off to the nearest thousand dollars, unless otherwise indicated.

(r) Operating segments

The registered scheme is outside the scope of AASB 8 *Operating Segments* as it does not satisfy the requirement, under AASB 8, of having debt or equity instruments traded in a public market, or file their financial statements with a securities commission or other regulatory organisation for the purpose of issuing any class of instruments in a public market.

(s) Comparatives

Certain comparative figures have been restated to conform with the financial statement presentation adopted for the current year.

3 Financial risk management

The Fund's activities expose it to a variety of financial risks: market risk (including price risk, currency risk, and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management program focuses on ensuring compliance with its governing documents and seeks to maximize the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects of the Fund's financial performance. As part of its risk management strategy, the Fund may also utilise a range of derivative financial instruments to manage certain risk exposures.

The Responsible Entity via the Investment Manager assesses the risk profile before entering into economic hedge transactions. More details about risk management policies employed by the Fund to manage financial risks are discussed below.

(a) Market risk

Market risk is the risk that the value of the Fund's investments or the benefits arising thereon will fluctuate because of changes in market prices. Market risk comprises three types of risk: price risk, foreign exchange risk and interest rate risk.

(i) Price risk

Price risk is the risk that a change in market price will affect the Fund's income or the fair value of its holding of financial instruments. The objective of price risk management is to manage the control price risk exposures within acceptable parameters while optimising the return.

The Fund's Responsible Entity aims to reduce market risk through analysis of the economic cycle and broad research of companies and markets, which may impact the Fund's investments. In addition, the Responsible Entity, within asset allocation ranges, reduces exposures to the sectors they perceive to be overvalued in favour of sectors which they believe have the prospect of better relative returns.

Price risk is not considered to be significant to the Fund's investments at 30 June 2021 and 30 June 2020.

(ii) Foreign exchange risk

Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuate due to changes in exchange rates. The Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

As the Fund has no direct exposure to material monetary securities denominated in currencies other than the Australian dollar, foreign exchange sensitivity has not been presented.

(iii) Interest rate risk

The Fund's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows.

The Responsible Entity establishes interest rate management strategies to manage the risk of the Fund, as well as managing exposures around the benchmark.

The Responsible Entity and the Investment Manager monitor the Fund's interest sensitivity position on a daily basis.

The Fund has direct exposure to interest rate changes on the valuation of its interest bearing assets and liabilities. However, it may also be indirectly affected by the impact of interest rate changes on the earnings of certain companies in which the Fund invests and impact on the valuation of certain assets that use interest rates as an input in their valuation model. Therefore, the sensitivity analysis within Note 3(b) may not fully indicate the total effect on the Fund's net assets attributable to unitholders of future movements in interest rates.

3 Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

The table below summarises the Fund's exposure to interest rate risk.

	Floating interest rate	Fixed interest rate			Non interest bearing	Total
		less than 1 year	1 to 5 years	Over 5 years		
30 June 2021	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Assets						
Cash and cash equivalents	82,905	-	-	-	-	82,905

(b) Summarised sensitivity analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unitholders to interest rate risk. The reasonably possible movements in the risk variables have been determined based on the Responsible Entity's best estimates, having regard to a number of factors, including historical levels of changes in foreign exchange rates and the relevant benchmark, historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance and/or correlation between the performance of the economics, markets and securities in which the Fund invests. As a result, historical variations in the risk variables are not a definitive indicator of future variations in the risk variables.

The effect on the net assets attributable to unitholders and profit or loss due to a reasonably possible change in interest rates with all other variables held constant is indicated in the table below:

3 Financial risk management (continued)

(b) Summarised sensitivity analysis (continued)

30 June 2021	Change in index		Impact on operating profit/net assets attributable to unitholders	
	Increase %	Decrease %	Increase \$'000	Decrease \$'000
Bloomberg AusBond Composite 0+ Yr Index	5	(5)	794,001	(794,001)
30 June 2020	Increase %	Decrease %	Increase \$'000	Decrease \$'000
Bloomberg AusBond Composite 0+ Yr Index	5	(5)	804,643	(804,643)

(c) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund, resulting in a financial loss to the Fund.

The Fund is exposed to concentration risk when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

Concentrations of credit risk are minimised primarily by ensuring that transactions are undertaken with a large number of counterparties (either directly or indirectly).

As at 30 June 2021 and 30 June 2020, there were no financial assets that are past due or impaired, or would otherwise be past due or impaired except for the terms having been renegotiated.

The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets.

The credit quality of financial assets is managed by the Fund using external credit rating categories in accordance within the investment mandate of the Fund. The Fund's exposure to each grade is monitored on a daily basis. The review process allows the Responsible Entity to assess the potential loss as a result of risk and take corrective action. The table below show the credit quality of the Fund's debt securities.

Portfolio by rating category	As at			
	30 June 2021		30 June 2020	
Rating	%	\$'000	%	\$'000
AAA+ to AA-	56.85	1,526,120	63.90	1,947,292
A+ to A-	22.63	607,461	18.58	566,101
BBB+ to BBB-	20.52	550,849	17.52	533,803
Total	100.00	2,684,430	100.00	3,047,196

(d) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. Cash flow risk is the risk that future cash flows derived from holding financial instruments will fluctuate.

These risks are controlled through the Fund's investments in financial instruments, which under normal market conditions are readily converted into cash. Term deposits are considered illiquid and consequently have a higher exit fee, if exited prior to their end date. In addition, the Fund maintains sufficient cash and cash equivalents to meet normal operating requirements.

The risk management guidelines adopted are designed to minimise liquidity and cash flow risk through:

- ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- ensuring that there is no concentration of liquidity risk to a particular counterparty or market.

The Investment Manager monitors the Fund's liquidity on a daily basis and any issues relating to funding constraints or overdrafts are reported to the Responsible Entity.

3 Financial risk management (continued)

(d) Liquidity risk (continued)

Financial liabilities of the Fund comprise of distributions payable, other payables and financial liabilities at fair value through profit or loss. Distributions payable are settled on payment date and other payables are typically settled within 30 days.

The table below details the Fund's non-derivative financial liabilities into the relevant maturity groupings based on the remaining period at balance date to the contractual maturity date. The amounts in the table are contractual undiscounted cash flows.

	Less than 1 month \$'000	1-6 months \$'000	7-12 months \$'000	Over 12 months \$'000	Total \$'000
30 June 2021

4 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets/liabilities at fair value through profit or loss (FVPL) (see Note 9 and 10)
- Derivative financial instruments (see Note 11)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy;

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
 - b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2);
- and
- c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

Financial assets and liabilities at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments at fair value through profit or loss are measured at fair value with changes in fair value recognised in the Statement of comprehensive income.

- Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at balance date without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Fund is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price.

When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

4 Fair value measurement (continued)

- Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

The determination of what constitutes "observable" requires judgment by the Responsible Entity. The Responsible Entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and not provided by independent sources that are actively involved in the relevant market.

The table below sets out the Fund's financial assets and liabilities measured at fair value according to the fair value hierarchy.

30 June 2021	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets at fair value through profit or loss:				
Derivatives	140	5,879	-	6,019
Interest bearing securities	-	2,684,430	-	2,684,430
Total	140	2,690,309	-	2,690,449
Financial liabilities at fair value through profit or loss:				
Derivatives	(2,057)	(9,122)	-	(11,179)
Total	(2,057)	(9,122)	-	(11,179)
30 June 2020	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets at fair value through profit or loss:				
Derivatives	1,776	1,401	-	3,177
Interest bearing securities	-	3,047,196	-	3,047,196
Total	1,776	3,048,597	-	3,050,373
Financial liabilities at fair value through profit or loss:				
Derivatives	(33)	(1,368)	-	(1,401)
Total	(33)	(1,368)	-	(1,401)

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

4 Fair value measurement (continued)

(i) *Transfers between levels*

There were no transfers between levels in the fair value hierarchy in 2021 and 2020.

(ii) *Valuation process*

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities. Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values due to their short term nature.

(iii) *Movement in Level 3 instruments*

There were no investments classified as Level 3 within the Fund as at 30 June 2021 and 30 June 2020.

5 Auditor's remuneration

The following fees were paid or payable for services provided by the auditor of the Fund:

	Year ended	
	30 June 2021	30 June 2020
	\$	\$
(a) Audit and other assurance services		
<i>Audit services and other assurance services</i>		
Audit services - Audit of the financial statements	27,285	26,000
Other assurance services - Audit of the compliance plan	4,423	3,913
Total remuneration for audit and other assurance services	31,708	29,913
(b) Non-audit services		
<i>Taxation services</i>		
Tax compliance services	8,186	6,200
Total remuneration for non-audit services	8,186	6,200

Auditor's remuneration for the Fund is paid by the Responsible Entity and has not been re-charged to the Fund.

6 Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	30 June 2021		30 June 2020	
	No.	\$'000	No.	\$'000
Opening balance	2,755,801,131	3,064,230	2,224,518,132	2,477,230
Applications	1,051,432,654	1,167,258	1,076,785,602	1,212,647
Redemptions	(1,319,233,981)	(1,461,183)	(672,219,345)	(752,825)
Reinvested distributions	113,540,444	124,100	126,716,742	141,190
Distributions paid and payable	-	(132,152)	-	(147,879)
Profit/(loss) for the year	-	24,442	-	133,867
Closing balance	2,601,540,248	2,786,695	2,755,801,131	3,064,230

As stipulated in the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets in the Fund. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

Units are redeemed on demand at the unitholder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

6 Net assets attributable to unitholders (continued)

Capital risk management

Net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

Applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Investment Manager. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

7 Distributions to unitholders

The distributions for the year were as follows:

	Year ended			
	30 June 2021		30 June 2020	
	\$'000	CPU	\$'000	CPU
Distributions				
Distribution paid - September	46,334	1.586	27,839	1.217
Distribution paid - November	2,348	0.082	-	-
Distribution paid - December	13,673	0.546	12,112	0.512
Distribution paid - March	15,876	0.597	52,279	1.920
Distributions paid and payable - June	<u>53,921</u>	<u>2.112</u>	<u>55,649</u>	<u>2.055</u>

Total derivatives	<u>11,179</u>	<u>1,401</u>

An overview of the risk exposures relating to financial assets held at fair value through profit or loss is included in Note 3 to the financial statements.

11 Derivative financial instruments

In the normal course of business, the Fund may enter into transactions in various derivative financial instruments with certain risks. A derivative is a financial instrument or other contract which is settled at a future date whose value changes in response to a change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include futures, options, forward currency contracts and swaps. Derivatives are considered to be part of the investment process. The use of derivatives is an essential part of the Fund's portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Fund against a fluctuation in market values or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Fund.

The Fund holds the following derivative instruments:

(a) Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are usually settled net daily with the exchange. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organised financial market.

(b) Forward currency contracts

Forward currency contracts are primarily used by the Fund to hedge against foreign currency exchange rate risks on its non Australian dollar denominated securities. The Fund agrees to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Forward currency contracts are valued at the prevailing bid price at the reporting date. The Fund recognises a gain or loss equal to the change in fair value at the reporting date.

(c) Swaps

Swaps are derivative instruments in which two counterparties agree to exchange one stream of cash flow against another stream. A credit default index swap is a credit derivative used to hedge credit risk or to take a position on a basket or credit entities (index). It is an agreement between two parties whereby one party pays the other a fixed coupon for the specified term of the agreement. The other party makes no payment unless a specified credit event occurs.

An interest rate swap is a forward agreement in which one stream of future interest payments is exchanged for another based on a specified principal amount.

11 Derivative Financial instruments (continued)

The Fund's derivative financial instruments at year end are detailed below:

30 June 2021

	Contract/notional \$'000	Fair Values	
		Assets \$'000	Liabilities \$'000
Interest rate futures - Long/(Short)	817,216	140	2,057
Interest rate swaps - Long/(Short)	267,200	5,879	-
Forward foreign exchange contracts - Long/(Short)	71,290	-	1,756
Credit default swaps - Long/(Short)	<u>(353,247)</u>	<u>-</u>	<u>7,366</u>
	<u>802,459</u>	<u>6,019</u>	<u>11,179</u>

30 June 2020

	Contract/notional \$'000	Fair Values	
		Assets \$'000	Liabilities \$'000
Interest rate futures - Long/(Short)	180,613	1,776	33
Interest rate swaps - Long/(Short)	(62,600)	-	164
Forward foreign exchange contracts - Long/(Short)	120,938	1,401	10
Credit default swaps - Long/(Short)	<u>(198,257)</u>	<u>-</u>	<u>1,194</u>
	<u>40,694</u>	<u>3,177</u>	<u>1,401</u>

Information about the Fund's exposure to credit risk, foreign exchange risk, interest rate risk and about methods and assumptions used in determining the fair value is provided in Note 3 and 4 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of the derivative financial instruments disclosed above.

12 Receivables

	As at	
	30 June 2021 \$'000	30 June 2020 \$'000

16 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period which would impact on the financial position of the Fund disclosed in the statement of financial position as at 30 June 2021 or on the results and cash flows of the Fund for the year ended on that date.

17 Contingent assets and liabilities or commitments

There are no outstanding contingent assets or liabilities or commitments as at 30 June 2021 and 30 June 2020.

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) The annual financial statements and notes set out on pages 5 - 26 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Fund's financial position as at 30 June 2021 and of its performance for the financial year ended on that date.
- (b) There are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Independent auditor's report

To the unitholders of Janus Henderson Australian Fixed Interest Fund - Institutional

Our opinion

In our opinion:

The accompanying financial report of Janus Henderson Australian Fixed Interest Fund - Institutional (the Fund) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Fund's financial position as at 30 June 2021 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2021
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include significant accounting policies and other explanatory information
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of the Responsible Entity are responsible for the other information. The other information comprises the information included in the annual financial report for the year ended 30 June 2021, but does not include the financial report and our auditor's report thereon.

Liability limited by a scheme approved under Professional Standards Legislation.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
