<b>Investment Strategy</b>	
<ul style="list-style-type: none"> <li>• The Fund pursues its objective by investing Primarily in equity securities of Companies located anywhere in the world and selected for their growth potential.</li> <li>• The Fund will invest Primarily in securities of companies that the Sub-Investment Adviser believes have a life science orientation.</li> <li>• The Fund will invest at least 25% of its total assets, in the aggregate, in the following industry groups: health care; pharmaceuticals; agriculture; cosmetics/personal care; and biotechnology. No more than 10% of the net asset value of the Fund may be invested in securities traded on any one Developing Market and the aggregate amount of the Fund which may be invested in securities traded on the Developing Markets is 20% of the net asset value of the Fund.</li> <li>• <b>The Fund intends to use or invest in financial derivative instruments other than for the purposes of hedging and/or efficient portfolio management, and may make use of advanced techniques using derivative instruments and strategies as a means of achieving its investment objectives and policies.</b></li> <li>• <b>Please note that there is a possibility that the NAV of the Fund may have a higher volatility due to its investment policies or portfolio management techniques.</b></li> </ul>	Refer to “IMPORTANT INFORMATION” and “Investment Objectives and Policies” in the Singapore Prospectus for the structure of the Fund.
<b>Parties Involved</b>	
<p><b>WHO ARE YOU INVESTING WITH?</b></p> <ul style="list-style-type: none"> <li>• The Company is Janus Henderson Capital Funds plc.</li> <li>• The Investment Advisor and Distributor is Janus Capital International Limited.</li> <li>• The Sub-Investment Adviser is Janus Capital Management LLC.</li> <li>• The Depository is Citi Depository Services Ireland Designated Activity Company.</li> </ul>	Refer to “Management and Administration” in the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
<b>KEY RISKS</b>	
<p><b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b></p> <p><b>The value of Shares of the Fund and the income (if any) from them may rise or fall. You may lose all of your principal investment. These risk factors may cause you to lose some or all of your investment:</b></p>	Refer to “Risk Factors” in the Singapore Prospectus for further information on risks of the product.
<b>Market and Credit Risks</b>	
<ul style="list-style-type: none"> <li>• <b>You are exposed to the market risks in global markets.</b> Your investments may go up or down due to changing economic, political or market conditions that impact the share price of the companies that the Fund invests in.</li> <li>• <b>You have greater exposure to market risks due to the Fund’s exposure to equities.</b> Historically, equities have greater volatility than bonds and other fixed income securities. The Fund’s valuation and the price at which you can exit may correspondingly fluctuate more strongly on a day-to-day basis compared to funds investing in bonds and other fixed income securities.</li> <li>• <b>You will be exposed to counterparty and settlement risk.</b> The Fund will be exposed to a credit risk on parties with whom it trades and will also bear the risk of settlement default. Counterparty risk involves the risk that a counterparty or third party will not fulfil its obligations to the Fund.</li> </ul>	

Liquidity Risks															
<ul style="list-style-type: none"> <li>• <b>The Fund is not listed and you can redeem only on Business Days.</b> There is no secondary market for the Fund. All redemption requests should be made to the authorised agents or distributors.</li> <li>• <b>Flexibility in redemption may be restricted.</b> The Fund may suspend the determination of the NAV of the Shares of the Fund and the sale or repurchase of such Shares in certain circumstances.</li> <li>• <b>You are exposed to liquidity risk.</b> Some of the markets and currencies in which the Fund will invest or have exposure to are less liquid and more volatile than the world's leading stock markets or currency markets and this may result in the fluctuation in the price of the shares.</li> </ul>															
Product-Specific Risks															
<ul style="list-style-type: none"> <li>• Smaller, newer companies may suffer more significant losses than larger, established issuers because they may lack depth of management, be unable to generate necessary funds or be developing or marketing new products/services for which markets are not yet established.</li> <li>• The Fund concentrates its investments in related industry groups. Many companies with a life science orientation are highly regulated and may be dependent upon certain types of technology. Changes in government funding or subsidies, new or anticipated legislative changes, or technological advances could affect the value of such companies. This Fund's returns, therefore, may be more volatile than those of a less concentrated portfolio.</li> <li>• Where the Fund may holds assets in currencies other than the base currency of the Fund or you invest in a share class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates.</li> <li>• The Fund intends to use or invest in financial derivative instruments other than for the purposes of hedging and/or efficient portfolio management, including for investment purposes. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.</li> </ul>
