

## GLOBAL SMALLER COMPANIES FUND

Class A2 EUR ISIN: LU1984712320  
Fund Currency: USD Share Class Currency: EUR

A sub-fund of Janus Henderson Horizon Fund, a Luxembourg SICAV managed by Henderson Management S.A.

### Objective and investment policy

#### Objective

The Fund aims to provide capital growth over the long term.  
Performance target: To outperform the MSCI World Small Cap Index, after the deduction of charges, over any 5 year period.

#### Investment policy

The Fund invests at least 80% of its assets in shares (equities) and equity-related securities of smaller companies, in any industry, in any country.

The Fund may also invest in other assets including cash and money market instruments.

The investment manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the MSCI World Small Cap Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target and the level above which performance fees may be charged (if applicable). The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### Strategy

The investment manager aims to deliver capital growth by investing in small companies listed globally. The fund looks to identify good quality, but potentially undervalued stocks, driven by the belief that the level of real returns delivered depends on the initial price paid.

**Distribution policy** This share class accumulates income which is retained within the price of the share class.

**Recommendation** This Fund may not be appropriate for investors who plan to withdraw their money within the short term.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Fund Prospectus.

### Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in net asset value in the past 5 years than those in lower categories. The lowest category does not mean risk free.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

**Equities** Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

**Smaller Companies** Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

**Derivatives** The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

**Exchange Rates** If the Fund holds assets in currencies other than the base currency of the Fund or you invest in a share class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates.

**Counterparties** The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund. For more information please see the Fund Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

### One-off charges taken before or after you invest\*

Entry Charge	5.00%
Exit Charge	0.00%**

\* The charges shown are maximum figures. In some cases you may pay less.

\*\* Subject to a charge of up to 1.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

### Charges taken from the Fund over a year

Ongoing Charges	1.90%
-----------------	-------

The ongoing charge figure is estimated because the Fund is relatively new and has insufficient track record for us to calculate it exactly.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

### Charges taken from the Fund under certain specific conditions

Performance fee	10.00%*
-----------------	---------

\*10% of any returns that, subject to a High Water Mark, the Fund achieves above the MSCI World Small Cap Index.

Performance fees may be charged before the Fund's outperformance target is reached.

For more information please see the Fund Prospectus.

## Past performance

The past performance is calculated in EUR.

The Fund and the share class were launched in August 2019. Insufficient data is available to provide past performance figures. Past performance is not a guide to future performance.

The Fund does not aim to track the performance of the index.
