PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Fund is only suitable for investors who:
 - Seek return from a combination of income and capital growth over the long term; and
 - are comfortable with the volatility and risks of emerging market corporate bond fund.
 - The principal may be at risk.

Further Information

Refer to “Investment Objectives and Policies” and “Risk Factors” in the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- The Fund is a sub-fund of the Janus Henderson Horizon Fund, a UCITS constituted in Luxembourg that seeks to provide a return from a combination of income and capital growth over the long term by investing in emerging market corporate bonds and other fixed and floating rate securities.
- The Fund currently offers Class A Accumulation (sub-class 2) and Class A Distribution (sub-class 4 and sub-class 5) shares denominated in its Base Currency and certain other currencies.
- No distributions will be made in respect of Accumulation Shares.
- Periodical distributions of investment income and net realised and unrealised capital gains may be made to holders of Distribution Shares depending on the Distribution Share Class you are invested in. Distributions made in respect of the Distribution Shares may reduce the net asset value of Distribution Shares of the Fund.

Refer to “The Sub-Funds” in the Singapore Prospectus and “Dividend policy” in the Luxembourg Prospectus for further information on features of the product.

¹ The Singapore Prospectus is available and can be obtained during business hours from the Singapore Representative’s office or its distributors’ offices or accessible at www.janushenderson.com.

* Performance fee is no longer applicable to the Fund from 1 July 2019.

Investment Strategy	
<p>The Fund will invest at least 70% of its net assets in emerging market corporate bonds and other fixed and floating rate securities. The Fund may invest up to two thirds of its net assets in non-investment grade securities including up to 20% of its net assets in distressed debt securities. The Fund may use derivative instruments with the aim of making investment gains in line with the Fund’s objective, to reduce risk or to manage the Fund more efficiently. The Fund is actively managed, seeking to outperform the JP Morgan Corporate Emerging Market Bond Index (CEMBI) Broad Diversified by 1.5% per annum, before the deduction of charges, over any 5-year period.</p>	<p>Refer to “Investment Objectives and Policies” and “Risk Factors” in the Singapore Prospectus for structure of the Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> ▪ The Company is Janus Henderson Horizon Fund. ▪ The Management Company is Henderson Management S.A. ▪ The Investment Manager is Henderson Global Investors Limited. ▪ The Depositary is BNP Paribas Securities Services, Luxembourg Branch. 	<p>Refer to “Management and Administration” in the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>There is no guarantee that investors will get back the invested amount given that the value of investments and its dividends are subject to market conditions and therefore may go up as well as down. These risk factors may cause you to lose some or all of your investment:</p>	<p>Refer to “Risk Factors” in the Singapore Prospectus and the “Investment and Risk Considerations” in the Luxembourg Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> ▪ Market risks associated with investing in emerging markets. Emerging markets are less established and more prone to political events than developed markets, such as government intervention, remittance of funds or quota restrictions, unorthodox custody practices, unproven trading programs and uncertain legal rights. This can mean both higher volatility and a greater risk of loss to the fund than investing in more developed markets. ▪ Currency. Assets of the Fund may be denominated in a currency other than the Base Currency of the Fund. Changes in the exchange rate between the Base Currency and the currency of the asset may cause the value of your investment and any income from it to rise or fall. ▪ Fixed income. Investments in fixed income instruments are subject to default/credit risk of the issuers, the risk of which is greater the lower the credit quality of the bond, interest rate risk as bond prices move inversely to changes in interest rates and liquidity risk when there is low liquidity in the secondary bond market. 	
Liquidity Risks	
<ul style="list-style-type: none"> ▪ The Fund is not listed and you can redeem only on Dealing Days. There is no secondary market for the Fund. All redemption requests should be made to the Investment Manager. ▪ Flexibility in redemption may be restricted. The Fund may, under the Articles of Incorporation, defer the redemptions or suspend the determination of the net asset value of the shares of the Fund in certain circumstances. ▪ Difficulty in realising the value of investments readily may delay 	

<p>payment of redemption proceeds. Any security could become hard to value or to sell at a desired time and price, increasing the risk of investment losses.</p>	
<p>Product-Specific Risks</p>	
<ul style="list-style-type: none"> ▪ Non-investment grade securities and/or distressed securities. The Fund may invest in non-investment grade or distressed securities which generally are subjected to more risk and volatility due to reduced credit worthiness, liquidity and a greater chance of default, which can thereby expose the Fund to potential losses. ▪ CoCos. CoCos can fall sharply in value if the financial strength of an issuer weakens and a predetermined trigger event causes the bonds to be converted into shares of the issuer or to be partly or wholly written off. ▪ ABS and MBS. ABS and MBS are callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date), that can be impacted from prepayment or extension of maturity. The value of your investment may fall as a result. ▪ Bond Connect Program. The Fund may invest in China onshore bonds via Bond Connect. This may introduce additional risks including operational, regulatory, liquidity and settlement risks. ▪ Derivatives and leverage. The Fund may use derivatives towards the aim of achieving its investment objective. This can result in 'leverage', which can magnify an investment outcome and gains or losses to the Fund may be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations. ▪ OTC market. Investments in OTC markets are speculative and relatively illiquid, hence are subject to high volatility. OTC investment's valuation may be difficult to obtain as reliable information of the issuers and the risks associated to the issuers' business is not publicly available. OTC derivatives have the risk of incorrectly valuing or pricing and they may not fully correlate with the underlying assets. Investment in OTC markets carries the risk that a counterparty may default on its obligations. In the event of a bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and significant losses. ▪ Currency hedging. When the Fund, or a currency hedged share class of the Fund, seeks to mitigate (hedge) exchange rate movements of a currency relative to the Fund's base currency, the hedging strategy itself may create a positive or negative impact to the value of the Fund due to differences in short-term interest rates between the currencies. ▪ Capital growth. In addition to income, the sub-class 4 and sub-class 5 shares may distribute realised and unrealised capital gains and original capital invested. Fees, charges and expenses are also deducted from capital. Both factors may result in capital erosion and reduced potential for capital growth. Investors should also note that these distributions may be treated (and taxable) as income depending on local tax legislation. 	
<p>FEES AND CHARGES</p>	
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? Additional fees may be imposed and payable to appointed distributors that are in addition to the maximum Sales Charge disclosed below. You should check with the agent or distributor through whom you subscribe for shares of the Fund whether they impose other fees and charges not included in the Prospectus. <u>Payable directly by you</u> You will need to pay the following fees and charges as a percentage of your gross investment sum:</p> <ul style="list-style-type: none"> Sales Charge ▪ Up to 5% of the total amount invested (which equals a maximum of 5.26% of the NAV of the Shares) Trading Fee ▪ Up to 1% of the gross amount being redeemed if redeemed within 90 calendar days of purchase Switching Fee ▪ Up to 1% of the gross amount being switched 	<p>Refer to "Fee, Charges, and Expenses" in the Singapore Prospectus for further information on fees and charges.</p>

GLOSSARY

Definitions

'ABS'	Asset-backed securities that are debt securities issued by corporations or other entities (including public or local authorities) backed or collateralised by the cash flow arising from an underlying pool of assets. The underlying assets typically include loans, leases or receivables (such as credit card debt, motor vehicle loans and student loans).
'Base Currency'	This is the base currency for each of the Funds and currency in which the financial reports are prepared for each Fund.
'Business Day'	A bank business day in Luxembourg unless otherwise stated.
'Class A Share'	Each Share which may be subject to the initial charge and trading fee, as described in 'Fees and Charges'.
'CoCos'	Contingent convertible bonds are debt securities that, upon a predetermined 'trigger event' can be converted into shares of the issuer or are partly or wholly written off.
'Dealing Cut-Off'	1.00 p.m. Luxembourg time on any Business Day
'Dealing Day'	For a deal placed before the Dealing Cut-Off on a Business Day is that Business Day; for a deal placed after the Dealing Cut-Off on a Business Day is the following Business Day; provided in both cases dealing has not been suspended, in which case it will be the Business Day immediately after dealing has recommenced.
'Fund'	Janus Henderson Horizon Fund – Emerging Market Corporate Bond.
'MBS'	Mortgage-backed securities debt securities which are structured like ABS but participate specifically in, or are secured by, residential or commercial mortgage loans.
'NAV'	Net asset value.
'OTC'	Over-the-counter.
'Share Class'	The designation of a Share that confers the specific rights as set out in the Singapore Prospectus.
'Shares'	Shares of no par value in the Company in respect of the Fund.
'SICAV'	Société d'investissement à capital variable.
'Singapore Business Day'	A day on which the banks in Singapore are open for business.
'Singapore Dealing Deadline'	5pm Singapore time on any Singapore Business Day which is also a Dealing Day.
'UCITS'	An undertaking for collective investment in transferable securities.
