

GLOBAL TECHNOLOGY AND INNOVATION FUND

Harness the power of innovation

With a disciplined portfolio construction process that seeks to mitigate risk in an asset class with rapid growth potential, the Global Technology and Innovation Fund takes a pragmatic approach to technology. The Fund invests in companies we believe to be resilient, as well as smaller positions in companies that have optionality.

Why Janus Henderson?

Balance of resilience and optionality

We utilise a disciplined and thoughtful portfolio construction approach. Through deep fundamental research, we identify companies we believe to be resilient as well as smaller positions in companies that have optionality.

Dedicated technology experts

Our team of technology analysts is embedded within the sector, approaching research as an industry participant. In this rapidly growing sector, it is critical to have experienced investors evaluating the impact of disruptive technologies and actively aim to identify winners and losers.

Investing in innovation

We seek companies that are driving innovation or benefiting from advances in technology. Our team looks for a company with sustainable competitive advantages, a culture of innovation and long-term growth potential that is attractively valued.

Balancing the disruptive nature of tech companies

Actively balancing risk between what we believe are resilient and optionality opportunities

Resilient vs. optionality

The investments underlying this financial product (referred to as the Fund) do not take into account the EU criteria for environmentally sustainable economic activities. While the analysis of ESG factors is an integral component across the Investment Manager's investment capabilities, the Investment Manager does not maximise portfolio alignment with sustainability risks as a separate goal in its own right nor does it precisely attribute the impact of ESG factors on returns for the Fund.

A breakdown of the two types of companies we invest in

RESILIENT

Long duration, established growth companies

- ▶ Lower business risk
- ▶ Lower valuation risk
- ▶ Average holding period 3+ years
- ▶ Average position size 3%

OPTIONALITY

Higher growth potential companies

- ▶ Lower to medium business risk
- ▶ Medium to higher valuation risk
- ▶ Average holding period 1–2 years
- ▶ Average position size <1%

The case for active management

Active management by our team of dedicated technology analysts seeks to take advantage of innovation by investing in companies focused on future success while avoiding companies struggling to adapt in this disruptive environment.

Market cap of tech stocks, within the MSCI IT Index, has grown more than 9 times since 1998.

Many legacy technology companies have become industry dinosaurs, as innovative companies have replaced their business models.

The top 10 tech stocks by market cap in 2018 are more geographically diverse than they were in 1998.

The MSCI IT Index is broken since the market cap of its constituents can be drastically volatile.
