- The Fund invests at least two-thirds in equity or equity-related instruments in Asian markets, excluding Japan. The Fund may invest in China A-Shares, directly through eligible exchanges or indirectly through derivative instruments.
- Investments involve varying degree of investment risks (e.g. liquidity, market, economic, political, regulatory, taxation, financial, interest rate, hedging and currency risks). In extreme market conditions, you may lose your entire investment.
- Investments in financial derivatives instruments ("FDIs") (such as futures, options, forwards and warrants) involve specific risks (e.g. counterparty, liquidity, leverage, volatility, valuation and over-the-counter transaction risk). The Fund may use FDIs to reduce risk and to manage the Fund more efficiently.
- The Fund's investments are concentrated in Asia Pacific (excluding Japan) and may subject to higher concentration risk.
- The Fund may invest in emerging markets which may involve increased risks. These investments may be less liquid and more volatile.
- The Fund may invest in China securities i.e. China A-Shares and China A-Shares access products, and may be exposed to currency, political, taxation and market risks.
- The investment decision is yours. If you are in any doubt about the contents of this document, you should seek independent professional financial advice.
- Investors should not only base on this document alone to make investment decisions and should read the offering documents including the risk factors for further details.

Investment Objective and Strategy
